## TIPS:

1. The product is mainly suitable for small plants. Each light is suitable for 3-5 small plants.
2. There should be a distance of 11-20 inch between the plant and the light.
3. In general, this plant lamp can be turned on for 3-9-12 hours a day for the best possible result.
4. Please keep enough water for the plants when you use the grow light.
5. Do not spray water on the lamp! It is not waterproof!
6. This product has been tested through FCC, ROHS, and CE. Please rest assured to use!
