

Kore™ Design

Move with Purpose,
Live with Energy:
Embrace the Kinetic Lifestyle

Embark on a sensory journey with Kore Design's specially designed child-friendly products, crafted to captivate and stimulate their senses. Infused with vibrant textures, our items are thoughtfully created to nurture sensory development, contributing to enhanced cognitive skills and emotional well-being in a playful and enriching manner.

Our sensory discs provide a fun barefooted and blindfolded game where kids can use their hands and feet to match the little discs with the larger discs. Learn to match and pair the two with the same textured surfaces. Offers a multi-sensory experience, the game teaches children they are capable of more than they think when their eyes are covered.

Sensory Game Tiles

Set of 6 Large and 6 Small, Assorted Colors

Sensory Game Tiles set comes with two disc sizes and blindfold.

The vibrant colors raised designs make them well-suited for children to engage in exploration and embrace external stimuli.

Artistic Patterns

Our sensory Sensory Game Disc Set showcase raised elements inspired by nature, including plants, seashells, and more. The intricate patterns, complemented by vibrant colors, engage children's attention. The raised textures offer sensory stimulation for their hands and feet, contributing to brain development and preventing flat feet.

Perfect Size for Kids to Use

Set includes 6 large floor tiles (10.23" diameter) and 6 small handheld tiles (4" diameter). These Sensory Game Discs are easily stored in storage pouch for future use.

Material Certificate Compliance
CE,EN71 compliant

Reliable and Safe

Crafted from high-quality plastic, the kids' Sensory Game Disc set is odor-free, soft, and supportive. It is resistant to breaking or fading, ensuring durability and reliability. Designed to be gentle on children, it provides ample stimulation without causing harm.

Versatile Applications

The varied shapes of raised elements on the sensory mats for autistic children can stimulate foot acupuncture points, aiding in the development of a stable musculoskeletal system and promoting good balance. This stress-relieving function is beneficial not only for children but also for adults.
