ASSEMBLY INSTRUCTION

FLOATING WALL SHELF

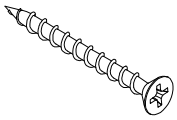

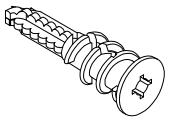

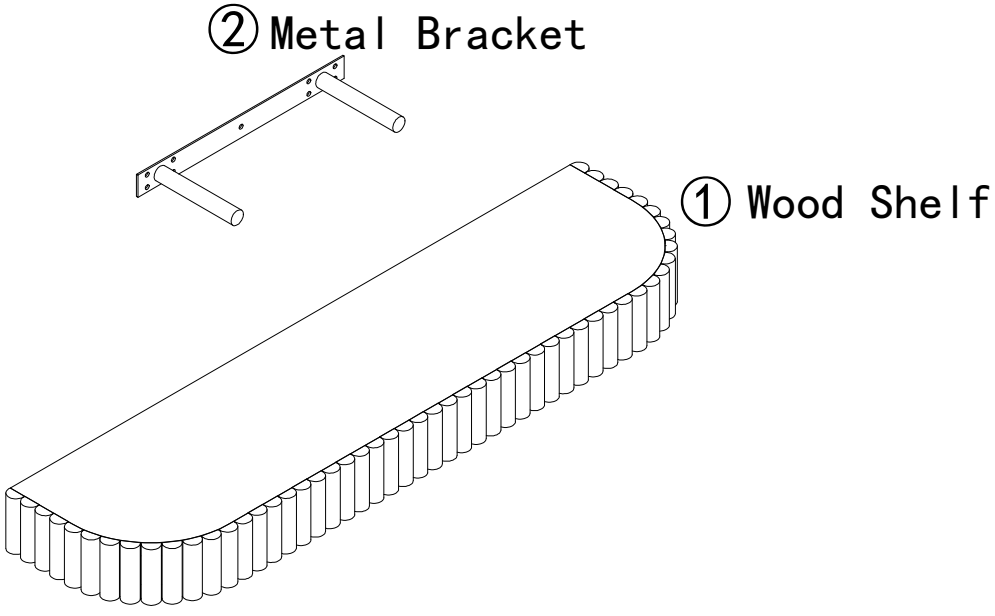

1-4

Packing list

Please check the contents to make sure you have received all components and accessories before installing.

Before you start:
For solid walls (brick or concrete), use part A.
For lightweight walls (plasterboard or hollow), use part C.

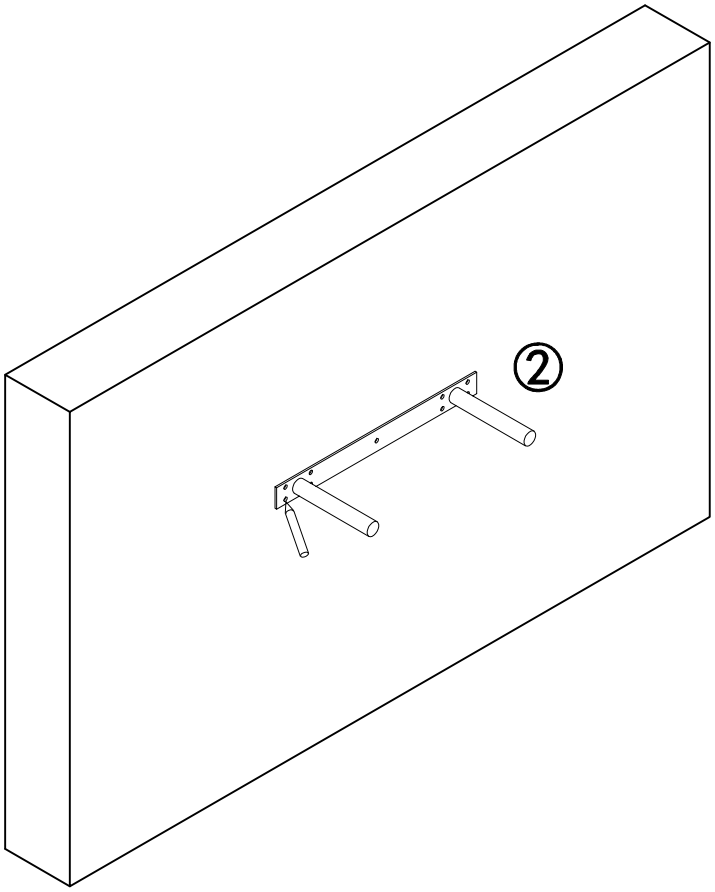

A×18	B×18	C×18
		
6x40mm	4x45mm	M14x40

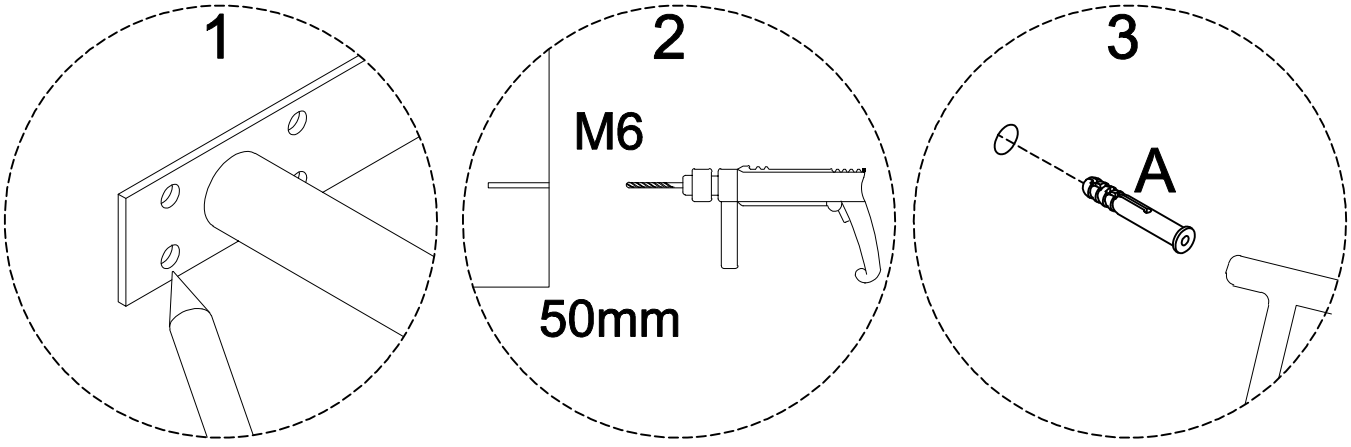

A×9

6x40mm

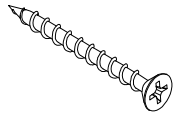

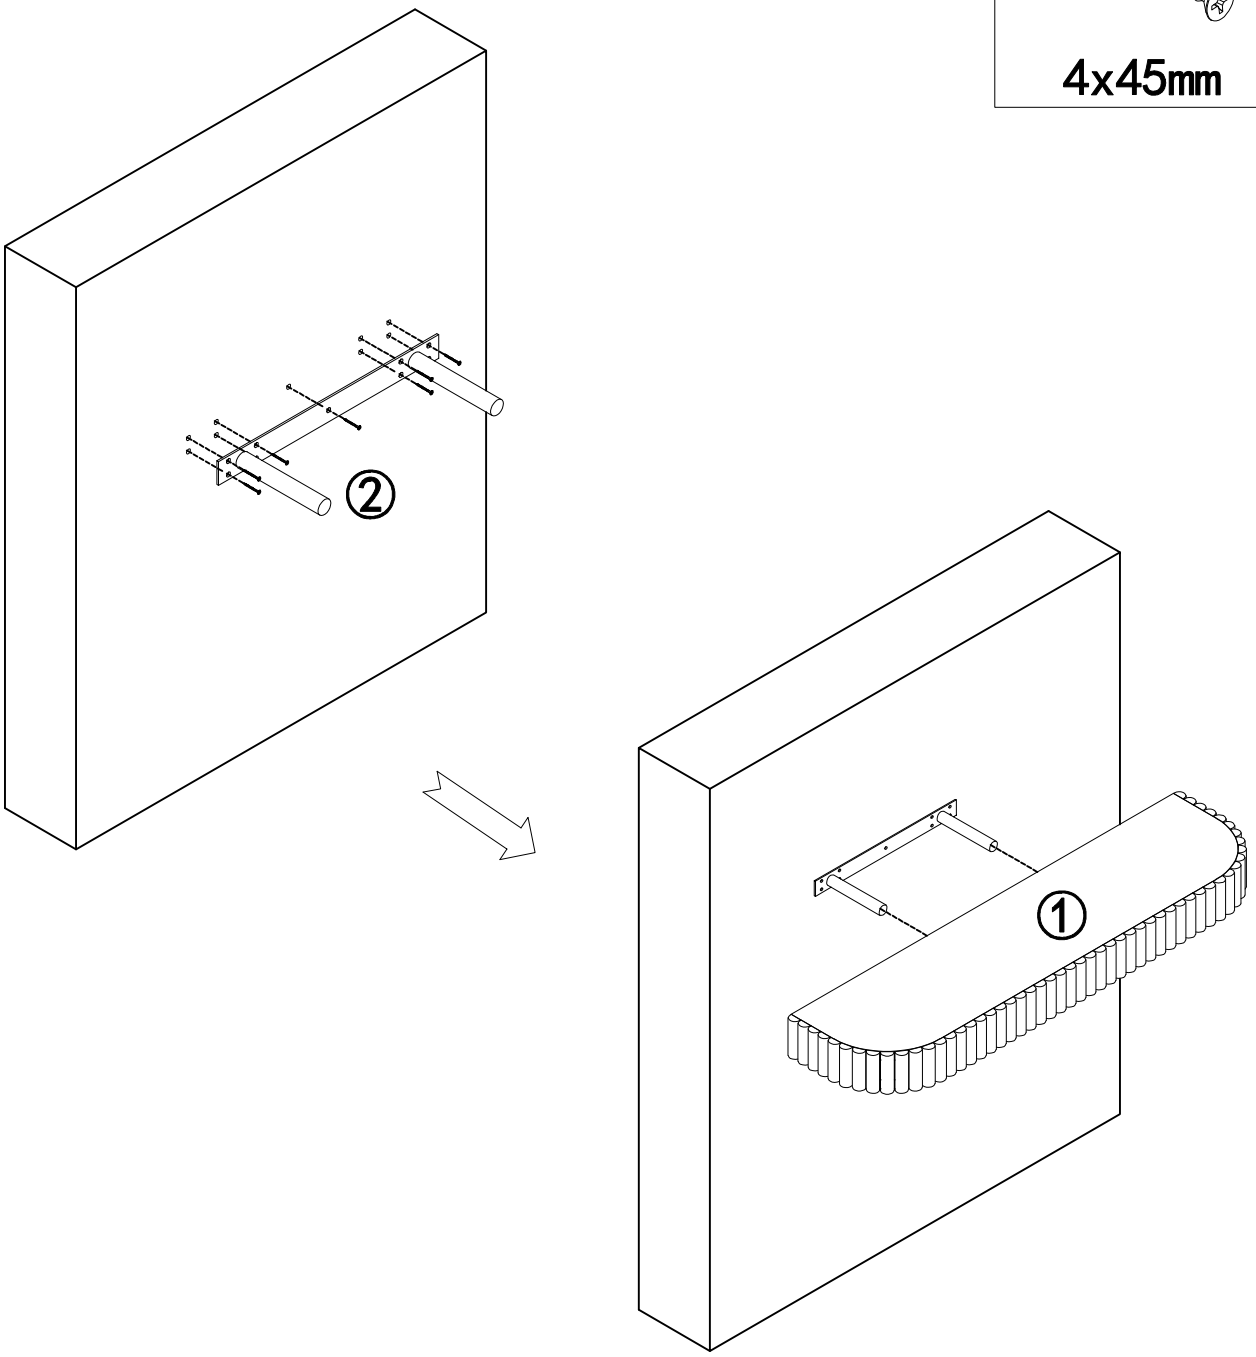

Step 1.

Place part “②” against the wall and keep it level. Mark the hole positions with a pencil, then remove part “②”. Drill holes at the marked spots with an electric drill, and use a hammer to tap part “A” into the holes until it is flush with the wall surface.

B×9

4x45mm

Step 2.

Secure bracket ② tightly to the wall using parts "B".

Mount the floating shelf onto bracket ②.
