Charging indication:

▪ Red light (charging)
▪ Off (fully charged)

Cycle charging

Once fully charged, the built-in 500mAh polymer lithium battery provides up to 8 hours of battery life when operating in long night mode.

Switch/toggle control:

- ON: long light mode
- OFF: Off mode
- AUTO: Sensing detects human activity in dark environments, The Light will automatically turn on for 15 seconds within a sensing range of 5-7 meters in front and 2-3 meters horizontally, covering a 120-degree horizontal span.

In sensing mode, when the night light detects light, it automatically disables the motion sensor, preventing the light from turning on.

One-click switching
