

IMPORTANT INFORMATION

Under normal use, hammock stands will last for years. It is, however, important to follow basic care tips to prolong the life of your stand.

USE & CARE

- Before each use, inspect your hammock for wear and weakness.
- Take your time getting into and out of your hammock. Any hammock may tip if your weight is not centered.
- Ensure the stand is assembled correctly and the hardware is securely tightened before each use.
- Swinging, bouncing, jumping and other excessive movements may cause serious injuries including, but not limited to, the stand tipping over.
- Supervise children at all times. Do not allow children to play or sleep in hammocks when used with this stand without constant supervision.
- Pets should not be allowed into hammocks as it may result in injuries or damage the product.
- Do not exceed the recommended weight capacity of the hammock and base stand.
- Store the stand and hammock indoors when not in use. Cool, dry locations are recommended to prevent damage that may result from exposure to moisture and other environmental elements.
- Use a soft cloth and warm water to wipe down the stand, if necessary. Dry the stand after cleaning and before storing to prevent rust.
- The powder coating on the stand is tough and durable but, even under normal use, some scratching is inevitable. To avoid excessive rust, wipe scratched areas as needed to remove moisture.

TROUBLESHOOTING

If the stand seems unstable, make sure it is on a level surface and the feet are correctly distributed as shown in the assembly instructions. Also make sure that all components are assembled correctly and the hardware is securely tightened.

Any modification or failure to follow the recommended care will void the product warranty.

WARNING

Manufacturer and seller expressly disclaim any and all liability from personal injury, property damage or loss, whether direct or indirect, or incidental, resulting from the incorrect attachment, improper use, inadequate maintenance, or neglect of this product.

UNIVERSAL HAMMOCK STAND

Read all assembly and care instructions carefully before using this product. Save these instructions for future reference.

- Select a smooth, level surface to place the hammock stand.
- Assemble components on a soft, clean surface to avoid scratching and/or damaging the finish.
- Ensure all parts are accounted for before disposing of packaging.

Replacement parts or products will be sent at our discretion if the defect is the result of any fault on our side. Proof of purchase, with the date of purchase as well as photos of the defective merchandise, must be provided. Photos are used to determine the cause of defects and for future quality control.

Please contact Customer Service directly; or if you have any questions, comments or

ASSEMBLY

After completing each step, repeat the step for the opposite side of the hammock stand.

Step 1

Put the base stand horizontally on your chosen surface. Extend the main diagonal bar.

Step 3

Expand the hammock base stand vertically. Connect the cross bar to the notch on the opposite main bar.

Note: All notches chosen must be identical for maximum even weight distribution.

You can choose different notches for opposite sides of the hammock stand while assembling. However, make sure that the two short diagonal bars on each end must be attached to the same notch.

Step 2

Attach the short diagonal bar to the chosen notch on the main diagonal bar.

Step 4

Mount the hammock to the S-hooks.

ADJUSTING YOUR HAMMOCK BASE STAND

Hammock Base Stand has 03 standard notches to adjust to your suitable height. To safely adjust the stand, consider adjusting:

- **The cross bars:** the cross bars can be attached to one of the three notches in the main diagonal bars. Choose the first notch for narrowest/highest setting, middle for medium, and last notch for widest/lowest setting.

- **The short diagonal bars:** the short diagonal bars can be attached to one of the three notches in the main diagonal bars. Choose the first notch for lowest setting, middle for medium, and last notch for highest setting.

HANGING YOUR HAMMOCK

- **The jump ring attached to the hammock.**

HIGH

Hang your hammock using the first jump ring. Suitable for taller persons, or in want of more elevated hammock.

STANDARD

Hang your hammock using the 2-3 jump ring. Suitable for most heights.

LOW

Hang your hammock using the 4-5 jump ring. Suitable for shorter persons or for easier rocking movements.
