

VELVET AND TEDDY FABRICS

Maintenance instructions

EN velvet and teddy fabrics with soft grip

Composition: 100% polyester

Features: Our fabric has a soft grip and slight hue. And they are suitable for intensive residential use, but be careful with sharp objects and pet nails, these may cause loops.

Maintenance: In case of any stains, immediately dab dry with a clean cloth or tissue. Definitely do not rub! Most liquids can be removed with lukewarm water. Use a gentle circular motion from the outside inwards. If the fabric can be detached from the furniture, washing at 60 degrees or dry cleaning is possible.

Protection: Generally, we do not recommend impregnating our upholstered furniture. However, if you want to do so, please test the impregnating agent on an invisible part of the fabric beforehand.
