**THE MODERN CLASSROOM  
MADE AFFORDABLE**

**A**s new technologies and 21<sup>st</sup>-century curricula transform the learning landscape, classroom furniture needs to evolve to accommodate more individual learning styles and to maximize teaching efficiency. However, furnishing a 21<sup>st</sup>-century classroom can be costly. In this age of advanced production capabilities and globalization, is the ability to develop and manufacture high-quality yet affordable educational furniture too much to ask?

Not at all. We call it **THE LUXOR CLASSROOM**.

**RIGID CLASSROOM LAYOUTS ARE QUICKLY BECOMING HISTORY.** Education today is no longer “one size fits all.” No two classrooms, educators or students are alike. Advances in our understanding of how students learn have influenced the lessons, methods and technologies educators employ. The physical classroom is similarly changing; more ergonomic and reconfigurable in its design, it’s adapting to a shifting educational landscape that encompasses creative, collaborative learning as well as independent study. Aesthetically appealing, flexible furniture that allows students to quickly shift tasks or learning modes has become the new norm. The only question for many districts is: Can we afford it?

**THE LUXOR CLASSROOM demonstrates our commitment and belief that no student today should be denied the benefits of a modern learning environment because of a modest furniture budget.**

**ENTER THE LUXOR CLASSROOM.** As technologically advanced as they may be, modern classroom solutions won’t work for educators if the solutions don’t work with their bottom line. Luxor gets this. That’s why we created a smart collection of sit-stand desks, charging solutions, and presentation furniture made to foster a collaborative, functional and forward-thinking learning environment that is also easy on the wallet. We call it The Luxor Classroom. Our collection features a wide range of furniture categories, including:

- **Student sit-stand desks** with a choice of crank, pneumatic, or manual height adjustment.
- **Desktop converters** that turn any open surface into a standing desk.
- **Adjustable-height training tables** designed to flip, nest and roll for easy storage.

- **Acoustic room dividers** that reshape open spaces into smaller, quieter spaces.
- **Charging carts** for safely storing, charging, and transporting laptops, Chromebooks, and tablets.
- **Magnetic whiteboards** in mobile or wall-mounted configurations.
- Multipurpose **AV carts** and **presentation stations** for even more teaching flexibility.

**BUILT TO LAST. DESIGNED TO ADAPT.**

Since our founding in 1946, Luxor has built a reputation for delivering remarkable quality at real-world prices. In fact, many Luxor products — such as our AV carts, whiteboards and mobile charging carts — have become

classroom staples. The Luxor Classroom is the culmination of decades of our education experience combined with manufacturing best practices. It demonstrates our commitment and belief that no student today should be denied the benefits of a modern learning environment because of a modest furniture budget. That’s why each piece is designed to balance flexibility and functionality with practicality — to make the modern classroom more affordable.

**DEEP INVENTORY MEANS FASTER SERVICE.**

*By stocking an abundance of product, Luxor is able to fulfill orders quickly while keeping costs down. Most orders placed by 2pm CT will be shipped the same day. When it comes to customer service, we’re proud of our reputation for being one of the best in the business.*
