6.Installation Steps

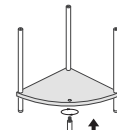

Step 1: Screw and fix the No.1 bolt (3PCS) to the top of the foot-rods.

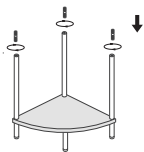

Step 2: Place the bottom board on the foot-rods.

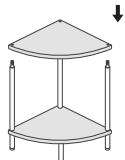

Step 3: Rotate and tighten the iron rod to fix it on the bottom board.

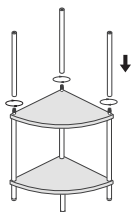

Step 4: Attach and tighten the last foot-rods to the bottom board.

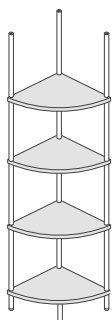

Step 5: Screw and fix the No.1 bolt (3PCS) to the top of the iron rod.

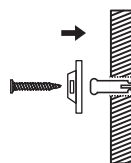

Step 6: Place the shelf board on the iron rod through the No.1 bolt.

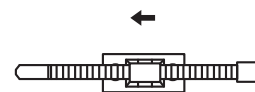

Step 7: Rotate and tighten the iron rod to fix it on the shelf board.

Step 8: Repeat steps 5 -> step 6 -> step 7

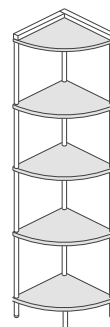

c. Fix the anti-toppling base on the wall with No.3 screws..

d. Pass the zip tie through the anti-toppling base.

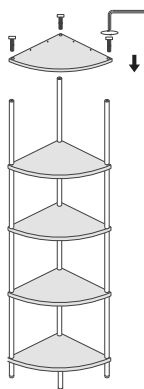

e. Use a zip tie to fasten the corner shelf.

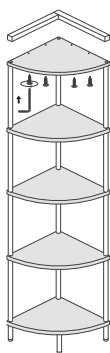

Installation is completed.

Note: Do not use excessive force during the assembly process to avoid damage to the components..

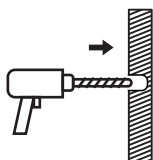

Step 9: Place the top board on the iron rod and align the holes, then use the wrench to turn the No.1 screw (3PCS) to fix it. (Note: the side with the recessed hole of the top board should face up)

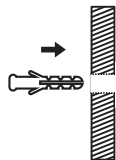

Step 10: Place the wooden bar on the hole of the top board and fix it with a wrench using No.2 screws (4PCS).

Step 11: Install the anti-toppling device.

a. Drill holes at a suitable position on the wall.

b. Insert the plastic expansion screw tube into the hole.

7. Maintenance

1. Clean the product regularly: Please use a clean, soft cloth to gently wipe the surface of the product to ensure that the product is clean and tidy.

2. Check the assembly parts every 3 months: Please regularly check whether the assembly parts of the product are tightened. If any looseness is found, please tighten it immediately to avoid unnecessary damage.

If you follow the above maintenance tips, your product will be able to maintain its best condition for a long time and provide you with the best user experience.
