50% brightness

100% brightness

BEFORE USE PLEASE REMOVE THE TRANSPARENT SHEET

Wall lamp installation:

1. Use positioning paper to mark the location where the hole needs to be punched.

2. Use a drill to punch holes in the marks.

3. Insert the rubber plug into the hole and screw the wood screw into the rubber plug.

4. Turn on the lamp, then align the hole on the back of the lamp body with the screw sleeve and clamp it, and the installation is complete.

6. Press the button switch and light the light.
