

Metal Fence Privacy Screen

Pre-Assembly Notes

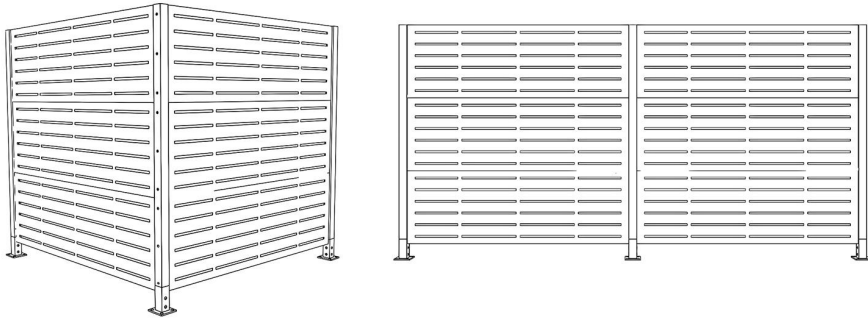

We have various choices of pattern for you:

Pre-Assembly Notes

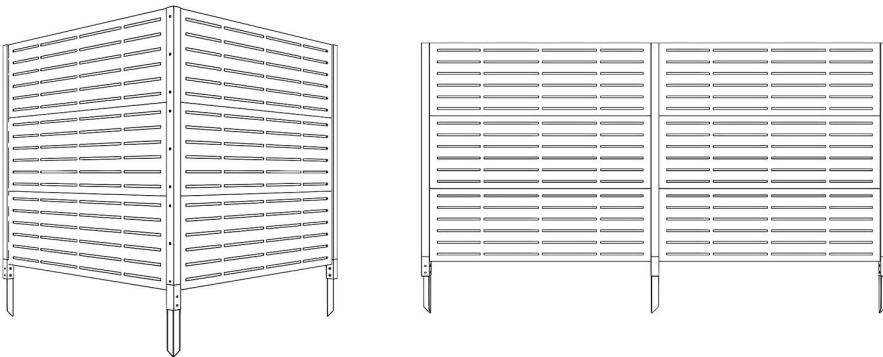

The Metal Privacy Screen supports 4 mounting options:

(1) **Square Base Installation:** Position the screen directly on a solid and level surface for stable placement.

Square Base

(2) **Ground Nail Installation:** Drive the included ground nails into soft foundations such as soil or sand to secure the screen.

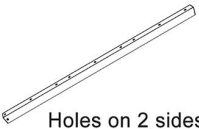

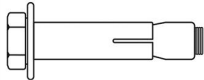

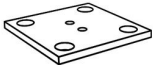

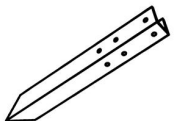

Ground Nail

Before assembly, please confirm your intended usage scenario and determine whether to use the square base or ground nails.

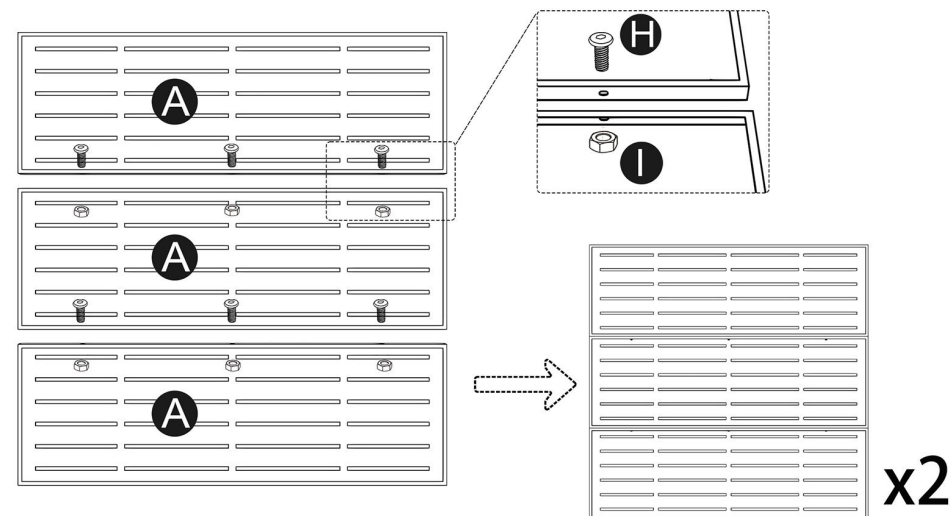

Assembly begins now

Assembly Unit
