■ Attention

1. If you want to replace the included 2700K vintage LED bulb, it is recommended to use an incandescent bulb with a maximum wattage of 60 watts.
2. The bulb will increase the brightness when it is reaching its lifespan or has partial short-circuit. At that moment, please switch off, change a bulb and use it as you would normally.
3. Please shut off the power and unplug it before you screw in a new bulb.
4. Don't put the lamp in overheating working condition or cast it into fire.
