or mallet

Or:

**Bolt****Cam lock**

In some of the assembly steps you will use bolts and cam locks (also known as mini-fix). If you are not familiar with this kind of hardware, the below is a tutorial that explains how to use them.

The instructions below are ONLY A TUTORIAL for bolts and cam locks. The actual assembly starts on the next page.

1. Install the bolt into the first panel.

2. Join the second panel by inserting it into the bolt of the first panel.

3. Insert the cam lock and turn it to lock both panels.

- We recommend using blankets or tablecloths to protect the product's finish during assembly.
- Some of the steps might require 2 people.
- Do not overtight any screws.

ASSEMBLY STEPS

STEP 1

Hardware/Tools:

1  24 Pcs
Dowel

(NOT INCLUDED)

Install #1 into the indicated holes on A, B, E, F and G.

 **TIP!** Use blankets to protect the product's finish during assembly.

Pay attention to the correct holes.

This step
requires of
2 people

FINALLY: Adjust the doors if necessary.

To adjust the height,
loosen up these screws,
align, then re-tighten

To adjust the depth,
loosen up this screw,
align, then re-tighten.

To adjust side-to-side,
loosen up or tighten
this screw.

ALL DONE!

Give yourself a nice pat on the back, you did a great job!

WARNINGS

Not paying attention to the following warnings could result in injuries.

TIP-OVER WARNING!

Always pay close attention to small children playing near the unit or if they are watching TV very close to it to prevent tip-over accidents.

- Do not sit, climb or stand on the Unit.
- Do not allow children to play over or inside the unit.

- 2 persons are required for moving the unit at distances longer than 2 feet.
- Remove or secure your TV or any objects that might fall off during moving.
- Lift by bending your knees, not your backs.

WEIGHT LIMITS DO NOT EXCEED

CARE AND MAINTENANCE

- Clean with a cloth lightly dampened in a solution of mild soap and water.
- Do not use solvents or abrasive materials.

Do not expose to direct sunlight or extreme environmental conditions.

Inspect and re-tighten any loose screws every 4 months.
