## Geometric Progression 5

D1214S24267-2263

Geometric Motion V is part of a series of eight geometric drawings that invite the viewer to experience the elegance of minimalist design. These understated compositions showcase line drawing techniques that explore a variety of geometric shapes that highlight the fundamental importance of the line in art.

Geometric Motion 5, is a skillful work that features a hexagonal line drawing that allows for a peaceful moment for observation. The series is reminiscent of Josef Alber's geometric line drawings of the 1950s. Part of ART by TA, Geometric Motion 5 is an exclusive and original work of art.
