Ultralight Beam 1

D2773S55451-4763

The Ultralight Beam series of works on canvas offers a strikingly bold exploration of magnified form, geometric shapes, and the interplay of light and dark rendered on a flat picture plane. Ultralight Beam 1 employs minimalism techniques to great effect using dual solid blocks of muted color separated by a narrow near divider in a lighter shade. The strong angular motif is interrupted by the overlay of a spotlight-shaped ovoid that provides a hint of depth. A stark three-toned color palette offers a study in juxtapositions. A study of bold, imaginative forms, this highly technical work on canvas is an alluring addition to ART by TA.
