Assembly Steps

Overview

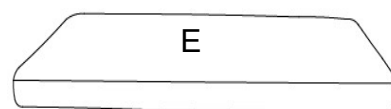

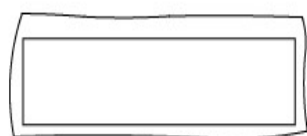

This Sofa has multiple parts and may require about 30 minutes to assemble. To give you an overview of the Sofa parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

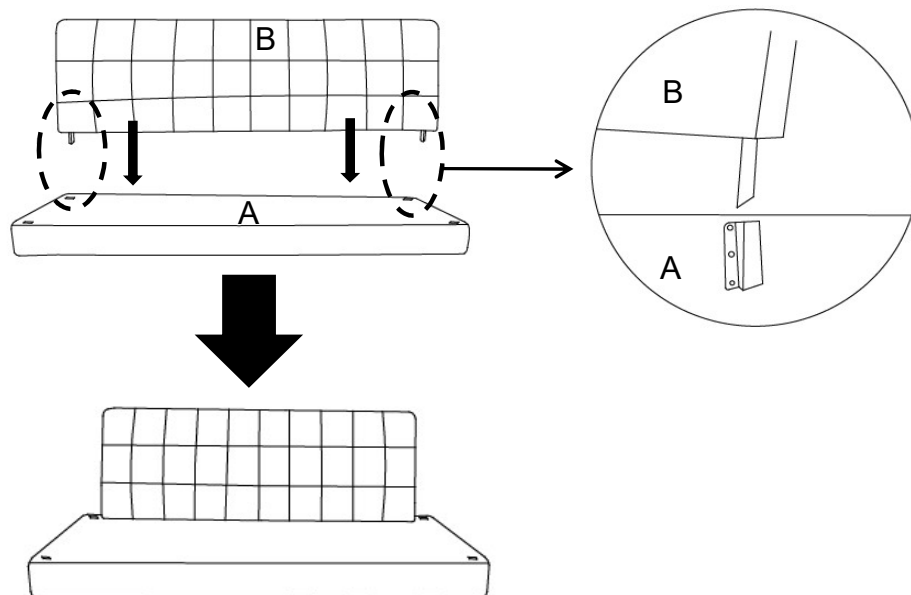

Take out the all parts and Small Box.
Open the Small Box to take out the Wooden Legs(F) and Hardware.
Place all the parts on a clean, non-marring surface.

Step 2

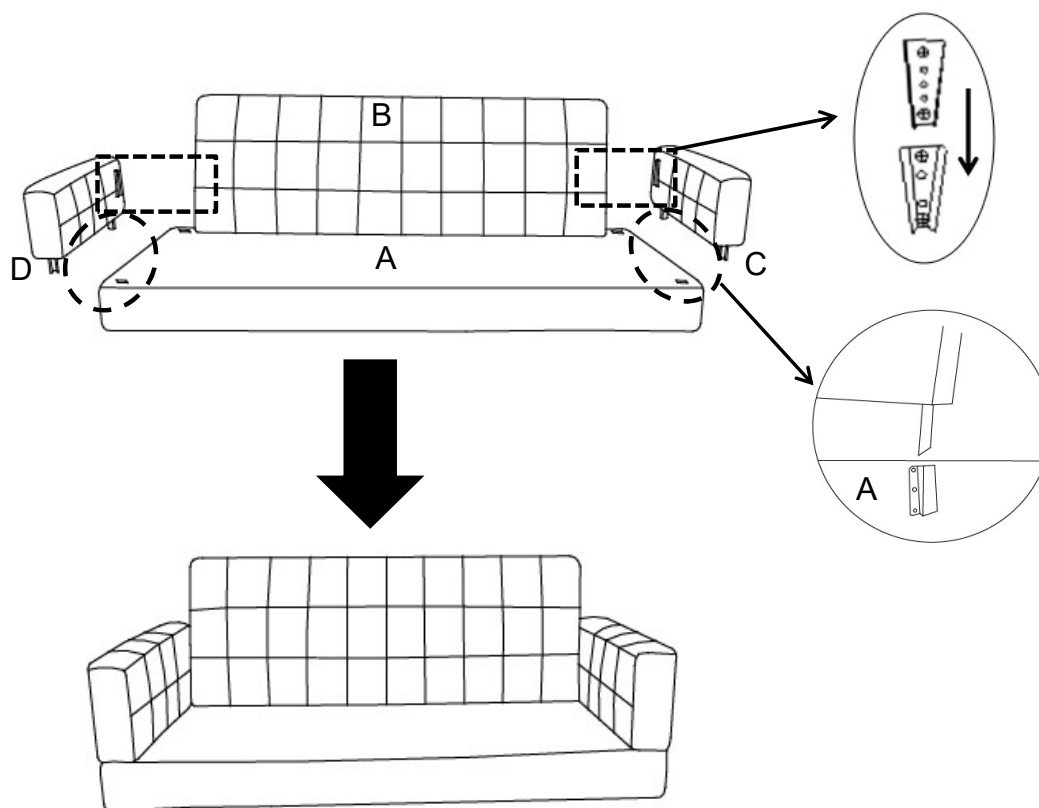

Open the Vacuum Bags to take out the Seat Cushion(E),

Step 2

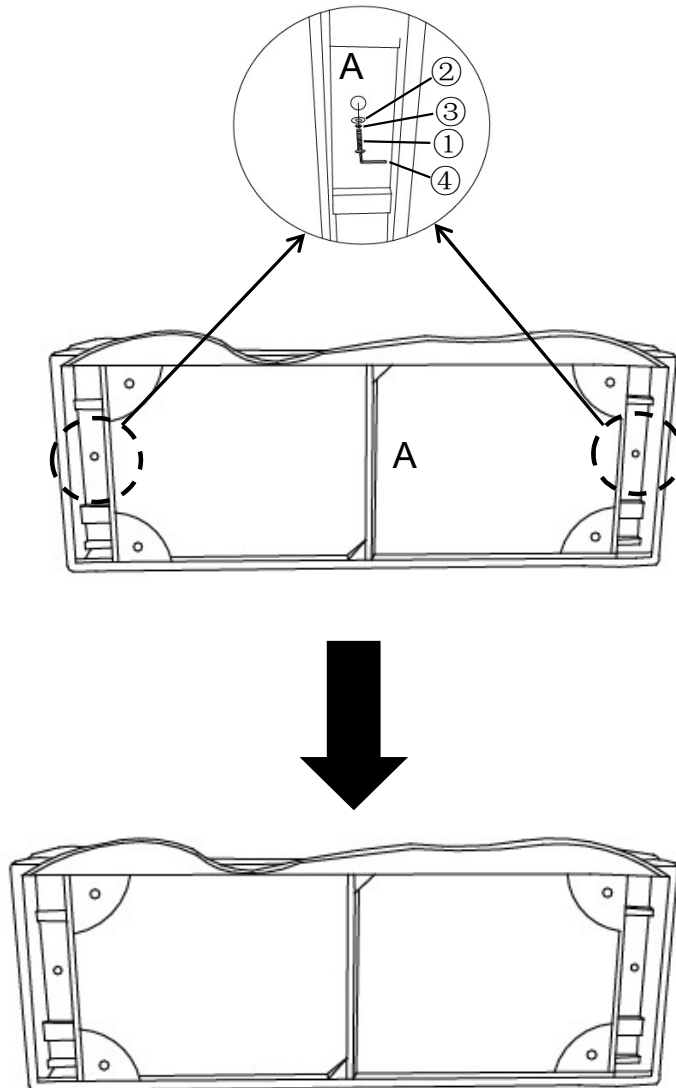

With the assistance of an adult companion, stand behind the Sofa Base(A) frame and lift the Sofa Backrest(B). Align the mounting brackets on the both sides of Sofa Backrest(B) with the brackets inside the Sofa Base(A) , then slide the Sofa Backrest(B) downwards to make sure it locks as pictured.

Step 3

Align the mounting bracket on the Right Arm(C), Left Arm(D) with Sofa Backrest(B) and brackets inside the Sofa Base(A).
Then slide Right Arm(C), Left Arm(D) downward by hand ensuring the mounting brackets and rectangular slots click and lock into place.

Step 4

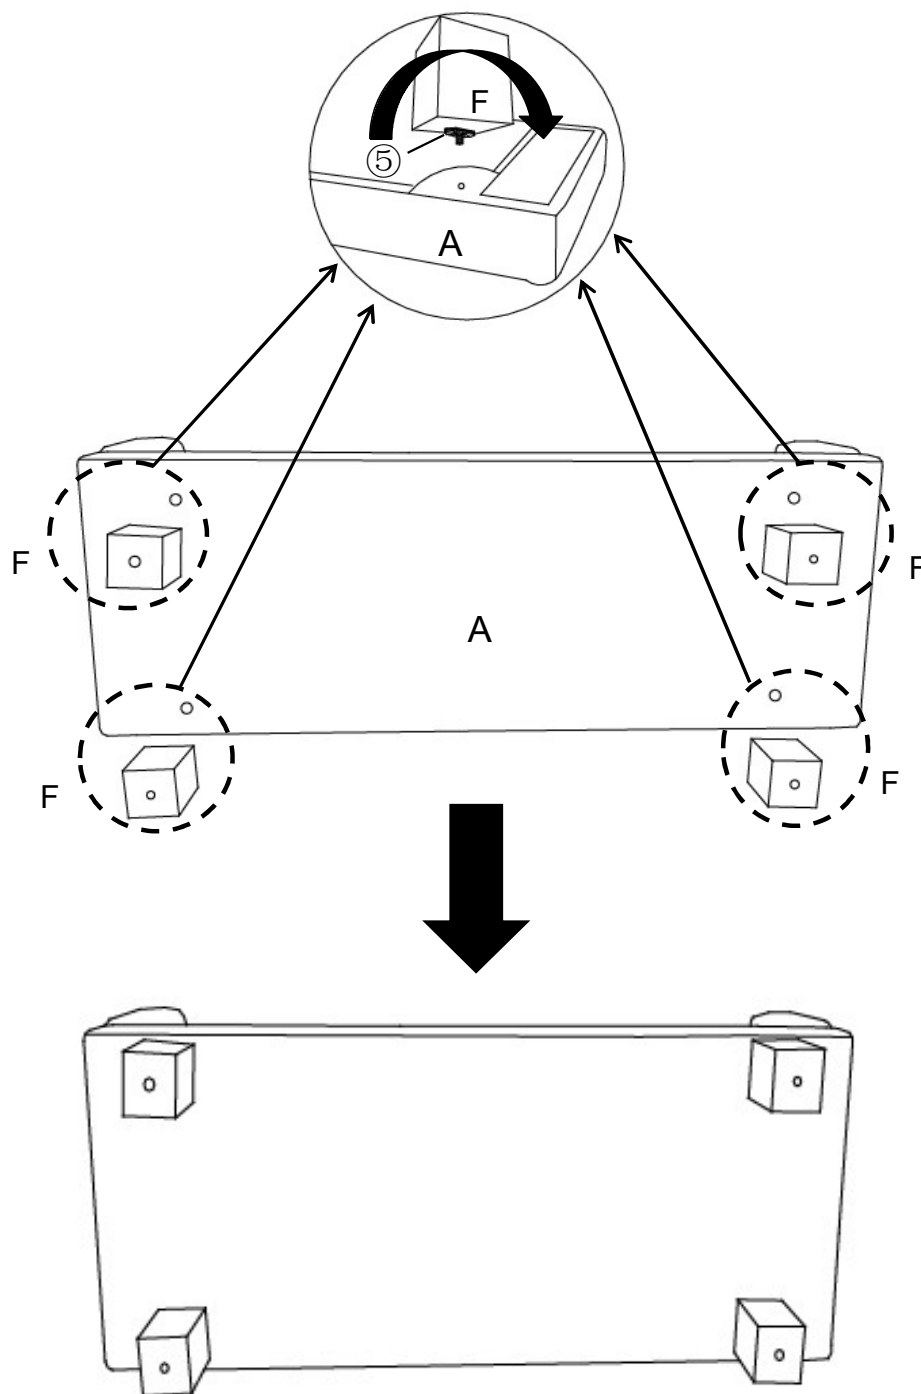

With assistance from your adult partner, place the whole product on a clean, non-marring surface.

Open the non-woven fabric cover at the bottom of the Sofa Base(A).

Then use an Allen Wrench(④) to secure the Left Arm(D) and Right Arm(C) to the Sofa Base(A) with 2 Bolts(①), 2 Spring Washers(③), and 2 Washers(②).

Step 5

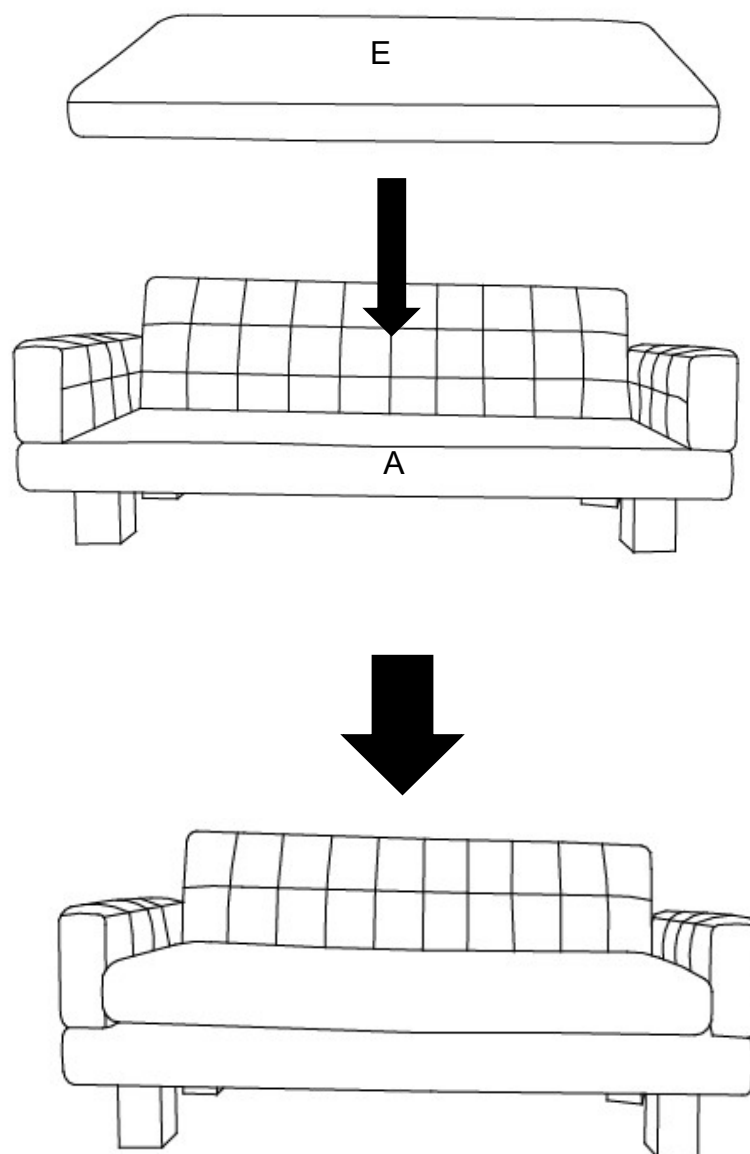

Install the Wooden Leg(F) with one Silicone Gasket and one Plastic Gasket onto the bottom of the Sofa Base(A), rotate the Wooden Legs clockwise and tighten them tightly, without overtightening.

Repeat the same process to install the other three legs.

Pay attention to the shape of the legs and ensure that they are in the correct position.

Attention: The use of Gaskets(⑤) is optional, especially to help reduce slight swinging. Some wooden legs may require more than one, while others do not.

Step 6

Put the Seat Cushion(E) on the Sofa Base(A).

Now your Sofa is ready for use.

This Sofa can only be used on a flat, level surface.
