

# Desk

## Installation Instructions

**NOTE:**

If there are nuts on the frame, you need to unscrew the nuts first

# All fittings before installation

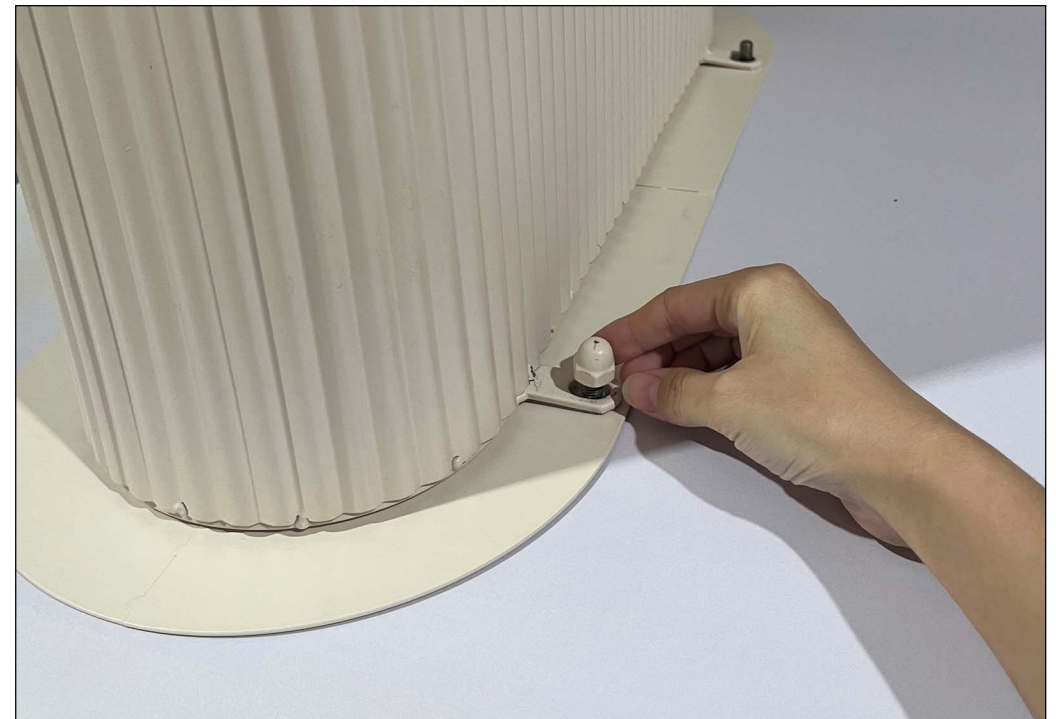

# Step 1

First, turn the desktop over and remove the nuts on the frame

# Step 2

After aligning the holes, fix the table legs with nuts, and then repeat the installation of the other table leg

## Step 3

Tighten the gasket at the bottom of the table legs

## Step 4

Flip the table over after securing the legs

## Step 5

Align the drawer handle with the hole position, then install the screws and tighten them
