

C Table Assembly Guide

Thank you for your purchase!

Included in this package is everything you need to assemble your C Table, consisting of one (1) table top, four (4) support legs, one (1) table top support, and one (1) table base. Your hardware package includes ten (10) screws and four (4) adjustable glides.

(!) Assemble your table on a soft surface to avoid scratching it. (!)

- 1) Insert glides into the silver inserts on the table base. (Fig. 1)
- 2) Attach the four support legs to the table base. (Fig. 1)
- 3) Stand the table upright and attach the table top support. (Fig. 2)
- 4) Attach the table top to the table top support. It may be easier to rest the table on its side for this step. (Fig. 3)

(!) Before using your new table, double check the tightness of all screws. (!)

Promptly wipe away any spills with a damp cloth, then wipe dry with a dry cloth. Prolonged exposure of any type of liquid on the top could cause a stain. This item is not warrantied against stains.
