

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

Step 1: Install the Mounting Bracket

Secure the mounting bracket to the electrical junction box using the provided mounting screws. Ensure the bracket is firmly attached.

Step 2: Connect the Electrical Wires

Using a wire connector, connect the fixture's hot wire (black or marked " L ") to the house hot wire (L).

Using another wire connector, connect the fixture's neutral wire (white or marked " N ") to the house neutral wire (N).

Ensure all wire connections are secure and no bare wire is exposed.

Connect the fixture ground wire to the house ground wire and secure the ground wires to the mounting bracket using the green ground screw.

Step 3: Attach the Canopy

Position the canopy over the mounting bracket. Tighten the decorative nut to secure the canopy in place.

Step 4: Install the G9 Bulb

Insert a compatible G9 bulb into the socket. Do not exceed the maximum wattage specified for the fixture.

Note: Bulb is not included.

Step 5: Install the Crystal Floral Clusters

Screw each crystal floral cluster into the designated mounting holes on the fixture body. Adjust the position of each cluster to ensure the crystals are evenly distributed and the overall arrangement is balanced.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
