ROCK-PRO SPC RIGID-CORE FLOORING

Product Specification:

Dimension 12" x 24"	Wear Layer 22 Mil	Finish Stone Texture
Thickness 7.0 mm	Sq Ft / Carton 16.021	Edge Profile Big Bevel

Introducing the ROCK-PRO Series by SKY FLOORING – an epitome of elegance and durability reimaged in flooring. With an opulent 7.0mm thickness and an impressive 22 mil wear layer, our SPC vinyl flooring sets a new standard for grace and resilience.

Inspired by the timeless allure of porcelain and marble tile, the ROCK-PRO Series captivates with its tactile textures and visual grandeur, all while shunning the complexities of maintenance and installation. Imbued with eco-friendly aggregates and stabilizers, its steadfast SPC composition mirrors the authentic feel of genuine stone underfoot.

Exuding sophistication through its beveled edge profile, the ROCK-PRO Series exquisitely showcases floor artistry. The secure Unilin Locking system ensures a seamless installation, making it ideal for harmonizing living, kitchen, and bedroom

spaces. Its robust SPC core guarantees stability, mirroring the tenacity of real stone surfaces.

Unyielding against fire, fading, and impressions, the ROCK-PRO Series thrives in high-traffic environments, maintaining its pristine appearance day in and day out. Crafted exclusively from 100% virgin, eco-conscious materials, this series bears the prestigious certifications of GreenGuard Gold and FloorScore, a testament to its low chemical emissions and dedication to a healthier living ambiance.

Each plank, sized elegantly at 12" x 24", is a symphony of design and engineering excellence, further enhanced by a ceramic bead finish UV coating that sets an unparalleled standard for performance in its class.

Elevate your space with the unmatched sophistication of the ROCK-PRO Flooring Series – a testament to the synergy between eco-consciousness, resilience, and accessible luxury.

Tuscan Dream

SF-101R

Similar to Tuscan Dream, this pattern also simulates Carrara Marble with more dense grey patterns. The white and grey pattern blend perfectly with lighter toned furniture and other home fixtures. Appropriate for both living room and kitchen flooring.

ACCESSORIES AVAILABLE

PLANK VARIATIONS

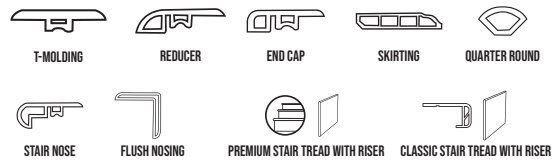

Nero Marquina

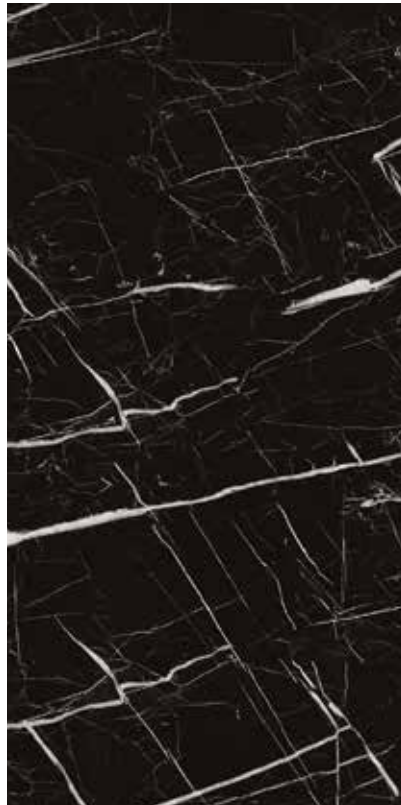

SF-103R

This rare yet popular pattern simulates Nero Marquina marble from Aulesta o Murelaga in Spain. Lluvia Negra means “Black Rain”. The pattern shows a certain calmness and reverence towards the earth that translates to solace and peace when seen in your home. This surface pattern is ideal for interiors in Living room or bedroom areas where tranquility is much preferred over presentation.

PLANK VARIATIONS

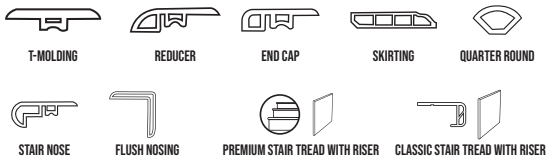

Palissandro

SF-104R

Pattern is similar to Palissandro Marble from Italy, usually seen in countertops and also in both exterior and interior flooring. Palissandro translates to 'rosewood' because of its wood-like lines and curves. It has a more accented and smoke-like pattern that catches the eye right away and blends perfectly well with grey-toned furniture and wall accents. Perfect for both indoor and outdoor flooring.

PLANK VARIATIONS

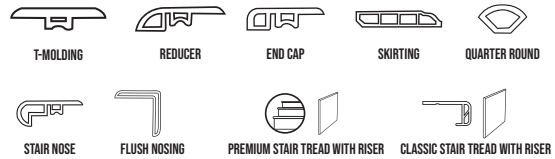

Fondazione

SF-105R

This pattern is similar to Grey Sicilan Marble mined in Egypt and Turkey, this pattern evokes adventure and a world-awareness that can add sophistication to any living room or patio. It is also practical looking and, lending to its natural color, easy to blend with stone finish surfaces. Ideal for both interior and exterior settings.

Jaipur Nights

SF-106R

This pattern resembles Indian Black marble and is very well regarded for its stunning appearance. This type of marble is usually seen in counter and sink tops, but the color is very versatile and can be excellent for a variety of surfaces and is most appropriate for indoor and outdoor flooring.

Aftermath

SF-805R

This surface simulates the look of weathered and charred concrete for a more urban and modern feel. The stone-based aesthetic is ideal for more industrial designs that evoke practical chic. This surface is ideal for home and office spaces for both interior and exterior settings.
