Product structure decomposition

Use parts A and B

Step1

Step2

Step3

Use a screwdriver to lock in the direction of the "+" sign

Disassemble along the direction of "-" sign

Step 1

Use parts **E**

Drawer rail breakdown diagram

① Dismantle the schematic diagram

Step 1 : Pull the rails apart

Step 2 : Press the nylon button and pull out (a).

Step 67

Step 68

Install as required

(K)

3.5x14mm

Install the anti fall hardware on the cabinet as shown in the picture first

Pen

Then mark the wall with a pen through the holes in the anti-fall hardware

Step 69

(K)

 x2

 x2  x2

Drill the hole with an electric drill
and punch in the colloidal particles

4x45mm

Fix the dressing
table to the wall

User's Guide

A27

Thank you for purchasing this product.

To use this product, please connect it to a power source.

Please use if the product works normally after connecting to power.

Introduction

The box is an intelligent controller. It has 1 USB output port 1 Type-c port and can distribute the current output up to 5V DC-2A. With 2 touch buttons, it can turn. ON/OFF the light, change light colors, and adjust the light luminance.

Operation

This touch button controls the on/off of the light

Short touch -> lighting on -> short touch -> lighting off.

This touch button controls the color switching and brightness adjustment of the light

1. It can only be used when the light is on
2. Offering 3 different colors to choose from. Simply tap to cycle through the options.
3. Long touch -> adjust the luminance.

⚠ ATTENTION PLEASE

1. If there is no touch response suddenly, Re-plug the power to reset the touch static electricity.
2. If you have any questions when installing, please feel free to contact us. Thank you.
