PACKING LIST

No	Description	Quantity
1	Hose reel	1
2	Mounting rod	1
3	Mounting bracket	1
4	Self-tapping screws	4
5	Fixing pin	4

INSTALLATION STEPS

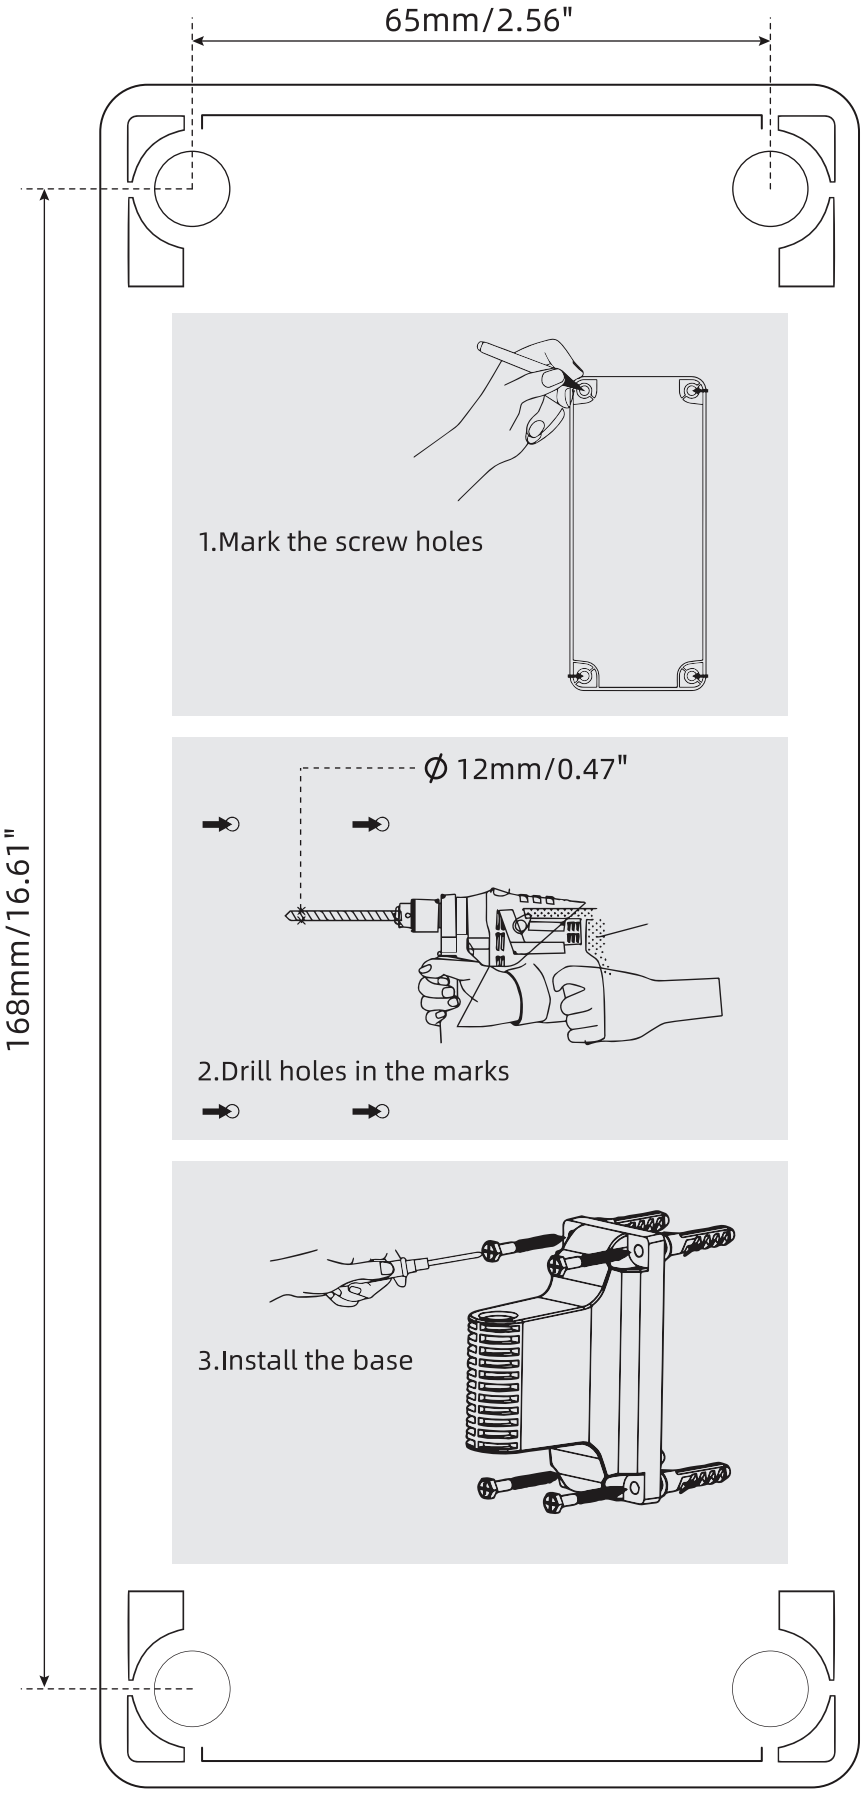

Fig.1

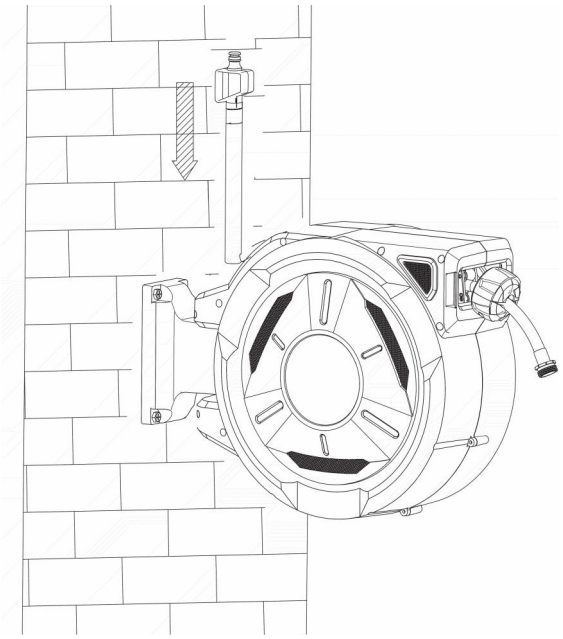

Fig.2

1	Begin by unboxing the unit and inspecting all the accessories.
2	Select a location close to a water source, ideally about a meter off the ground, to mount the reel.
3	Ensuring aligning the reel with the chosen wall or post. Utilize the provided mounting bracket as a guide to mark and drill four M12×60mm size holes.
4	Affix the bracket securely with the four self-tapping screws (refer to Fig.1 for guidance).
5	Finally, mount the reel to the attached bracket (refer to Fig.2 for assistance).

TIPS FOR OPTIMAL USE

1. Activate the water supply, extend the hose to your preferred length, select the mode, and then open the tap.
2. For hose retraction, initially extend the hose about one meter, firmly hold the hose stop, followed by a light tug on the hose to activate the retraction.
3. Safeguard against rapid retraction while holding the hose to prevent potential harm to nearby individuals or objects.

SAFETY PRECAUTIONS

1. If the hose reel is anticipated to be inactive for a prolonged duration, make sure to switch off the water supply.
2. Note that this hose reel is not designed for supplying drinking water.
3. For safety, always store this product in a location inaccessible to children.

MAINTENANCE GUIDELINES

- **Storage:** For long-term storage, ensure to keep the hose reel in a cool, dry area.
- **Cleaning:** Please note that the hose box does not require internal cleansing with water.

Maintenance

1. Upon completion of use, it's advisable to turn off the water supply and release any residual pressure via the nozzle.
2. To maintain the reel's longevity, refrain from using it to handle chemicals or substances.

TROUBLESHOOTING

Default	Reason	Solution
The hose could not retract	The hose has been completely pulled out and locked, without leaving any length to unlock	Simply use your hand or a tool of suitable size through the window and give it a half turn in the same direction you pulled the hose from
