Bluetooth speakers and light instructions

- 1 Long press the "BT" button and the power is on.
You can connect the bluetooth and turn on the light.
The bluetooth name is "Boahaus" and the initial password is "1234".
- 2 Long press the "BT" button and the bluetooth is off.
- 3 Short press the "BT" button and the music can be paused and continued.

- 1 Press the light button and the light is on. The initial brightness is medium.
- 2 Long press the light button and light will turn brighter.
The light will turn darker if this step is repeated.
- 3 Press twice and the light color is changed. There are three colors available and the brightness adjustment can follow the second point. Press again after the third color is on and the light will be off.
