

Assembly Tips

- Avoid over-tightening the hex bolts as this can cause the bolt threads to become stripped and result in less secure part connections.
- Assemble your cat furniture on a flat, level surface.
- In case of frayed fibers on the carpets exposed edges, trim with a pair of scissors to remove.
- Vacuum your cat tree prior to initial use to remove any packaging debris.

Care Tips

Vacuum fur when necessary and spot clean stains using luke warm water. Over time the carpet on your cat furniture may begin to show signs of wear. Periodically examine your cat furniture for areas of repetitive use which can result in fraying of the carpet and/or the jute rope. Use scissors to trim off the damaged areas.
