

Derrynane Weighted Blanket

The Derrynane Weighted Blanket is designed to bring a calm, cosy and comforting feel to your sleep and relaxation routine. Handmade with care, this weighted blanket gently rests over the body to create a secure, tucked-in feeling that can help you unwind at the end of the day.

It is ideal for use in the bedroom, on the sofa, or as part of a relaxing evening routine. Whether you are reading, watching TV or preparing for sleep, the Derrynane Weighted Blanket offers a soft, soothing and comforting layer of weight.

Product Details

Each Derrynane Weighted Blanket is handmade and filled with glass beads to help create an even, weighted feel across the body. The glass bead filling gives the blanket comforting weight while helping it sit smoothly and naturally when in use.

The blanket is available in a range of sizes and weights, making it suitable for different uses, from personal comfort to larger bed coverage.

Filling & Comfort

The Derrynane Weighted Blanket uses glass beads as its filling. Glass beads are commonly used in weighted blankets because they help provide weight without making the blanket feel overly bulky.

This gives the blanket a smooth, balanced and comforting feel, helping the weight spread more evenly across the body. The result is a cosy, secure feeling that many people find relaxing when winding down.

Sizes & Weights Available

Size	Blanket Weight
100cm x 135cm	6kg
135cm x 200cm	8kg
150cm x 200cm	8kg
200cm x 200cm	8kg

Why Choose a Weighted Blanket?

A weighted blanket can be a lovely addition to your night-time routine if you enjoy feeling cosy, settled and secure. Unlike a standard throw or blanket, the Derrynane Weighted Blanket has added weight, giving a deeper, more comforting feel when placed over the body.

Many customers enjoy using weighted blankets when relaxing before bed, reading, watching television or simply taking time to unwind.

Ideal For

The Derrynane Weighted Blanket is ideal for anyone who enjoys a snug, cosy and secure feeling.

It is suitable for:

Relaxing on the sofa

Winding down before bedtime

Reading or watching TV

Creating a calmer evening routine

Anyone who likes a tucked-in, comforting feel

Adding extra comfort to the bedroom

Important Safety Guidance

Weighted blankets are not suitable for everyone. They should not be used by babies or very young children.

The user should always be able to remove the blanket themselves easily. If the blanket feels too heavy, restrictive or uncomfortable, it should not be used.

If buying for someone with a medical condition, mobility issue, breathing difficulty or sensory concern, professional advice should be sought before use.

Care Instructions

Always follow the care label on the product.

We recommend airing the blanket regularly and keeping it clean and fresh as part of normal bedding care. Because this is a weighted blanket, it should be handled with care and not dragged, pulled or lifted by one corner, as this may put pressure on the stitching.

If using the weighted blanket with other bedding, make sure it feels comfortable and not too heavy or restrictive.

Delivery

Each Derrynane Weighted Blanket is handmade, so please allow approximately 2–3 weeks for delivery.

This allows time for your blanket to be carefully made, checked and prepared before dispatch. Once your order has been completed and dispatched, tracking details will be provided where available.

Free Nationwide Delivery

We offer free nationwide delivery on the Derrynane Weighted Blanket, making it easy to order online and have it delivered straight to your door.

Warranty

Any manufacturing defect should be reported straight away. This includes issues such as stitching faults or defects present when the product arrives.

Once confirmed, the product will be replaced. Normal wear and tear, misuse, washing damage or accidental damage are not covered.

Lifespan

Under normal use, a weighted blanket should last well when cared for correctly. It should be replaced if it begins to show signs of damage, uneven weight distribution, loose stitching or general wear.

Looking after your Derrynane Weighted Blanket properly helps keep it feeling comfortable, fresh and supportive over time.
