

Installation Detailed Diagram

Step 1

Screw the casters onto the solid wood posts (make sure to tighten them firmly).

Step 2

Install the four posts with casters onto the panel with four round holes.

Step 3

Install the remaining six cylinders and the drink rack at their respective positions and tighten the screws at the corresponding screw holes.

Step 4

Place the panel with eight screw holes flat on top of the four posts that have been screwed, align the small cylinders with the holes, and tighten the screws to fix them.

Step 5

Install the handle and tighten the screws under the panel.

Installation completed!!!
