

16-Speed Hand Mixer

- 300 watts of mixing power
- Backlit LCD display, digital speed control with built-in mixing timer
- Soft-touch comfort handle
- Flat standing base with cord clip for countertop convenience
- Includes durable chrome-plated mixing beaters

The NESCO 16-Speed Hand Mixer puts professional power in the palm of your hand. The lightweight DC motor delivers 300 watts of mixing power that can take on almost any mixing task. The Backlit LCD display allows you to easily see and adjust the digital speed control and built-in mixing timer. The simple fingertip controls let you switch between the sixteen-speed settings with ease making any task effortless. Go from slow stir to high whip with just a couple presses of the speed control button. This hand mixer has a soft-touch comfort handle which is ideal for extended mixing, and durable chrome-plated mixing beaters whip and knead foods like cookie dough, mashed potatoes, whipped cream and so much more. The 10-minute built-in mixing timer helps keep track of how long you are mixing ingredients for your favorite recipes. The NESCO 16-Speed Hand Mixer features a flat-standing base and a power cord clip for convenient countertop storage in your family's kitchen. Mix well & serve.
