Frame 49

BY SØREN LASSEN

Frame 49 with one shelf is a flexible storage solution consisting of a square module in a cubistic frame. The simple storage system is inspired by the Kubus candleholder by Mogens Lassen, based on strict mathematical formulas and designed with the greatest precision. The Frame modules are available in five sizes: 28, 35, 42, 49 and 70, for use in countless contexts. The modules can be hung directly on the wall or stand on their own on the floor. Combine the Frame modules to create a classic bookcase, a nightstand, a room divider or something else entirely. The possible combinations are endless. The Frame modules are available with or without doors, shelves and drawers, making sure that you can design the perfect storage solution to match your needs for organisation and storage. This variant is a classic Frame 49 module without doors and with one shelf. The entire Frame collection is manufactured and assembled by hand in Denmark. It is a collection that truly unites functionality, quality and aesthetics.
