READ BEFORE ASSEMBLY

1. To begin enjoying your new Smarair mattress topper, simply remove plastic packaging and get out the outer cover and the three interwoven fiber blocks. If using scissors, be careful not to cut through to the topper.
2. Lay down the outer cover on a flat surface. Place the three fiber blocks on the outer cover in order according to your need. (Either side up) And then fold over the outer cover and zip it up. Now the assembly is finished, you may begin enjoying the benefits of your new topper.
The new mattress topper may initially have a slight odor; it is completely harmless and will dissipate over a short time with regular use.
3. The two sides of the outer cover are made of different materials. You can choose either side according to different seasons, temperature, and humidity changes.
4. DO NOT machine wash the three inner cores. Rinse them with water.
