# WARNING

- Installation on solid, level ground (e.g., concrete or pavers) is strongly recommended.
  - On hard surfaces (e.g., concrete), secure each leg with 3 expansion bolts.
  - On grass or compacted soil, secure each leg with 3 ground stakes.

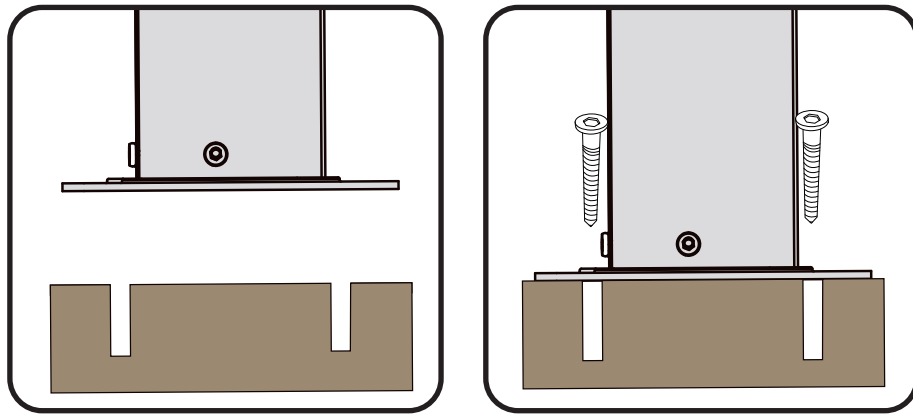

**\*\*Note\*\*** Installing directly on soil or grass may lead to settling, tilting, or even collapse over time due to seasonal ground movement. For soft surfaces, we strongly recommend using spiral stakes or ground augers (sold separately) to secure the structure.

- Always place the gazebo on level ground and maintain a minimum clearance of 6 feet (1.8 m) from fences, walls, houses, trees, power lines, laundry lines, or other obstructions.
- Inspect all bolts, joints, and anchors every 90 days for looseness, rust, or damage. Tighten or replace as needed.
- **\*\*Never\*\*** climb on, shake, lean heavily against, or use the gazebo as a support structure.
- **\*\*Do not use\*\*** in high winds (>25 mph), heavy snow, storms, or severe weather. Remove canopy or disassemble if extreme conditions are expected. Clear snow immediately once it reaches 2 inches (5 cm) to avoid damage or collapse.
- Keep away from open flames, grills, or fire hazards. Fabric parts may ignite easily.
- This product is not a toy. Supervise children at all times.
- Failure to follow these instructions may result in property damage, serious injury, or death. Warranty does not cover damages caused by improper installation or misuse.

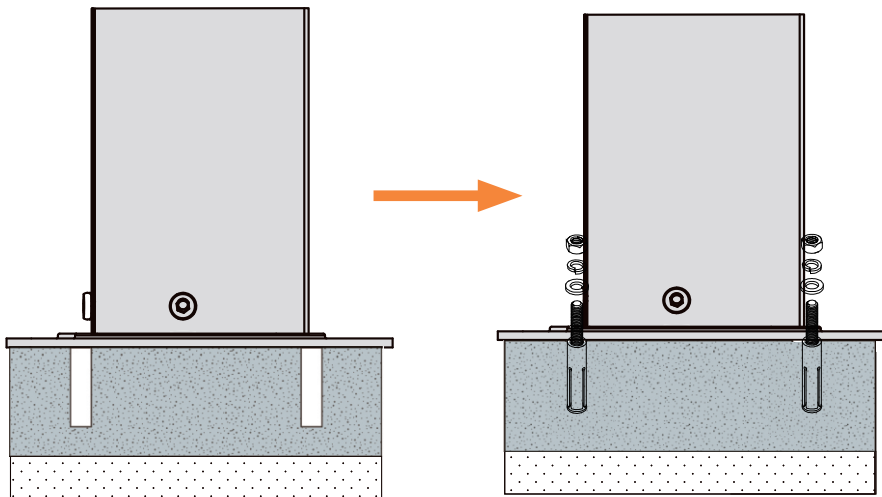

The following installation methods will provide better wind resistance performance, extend the product's lifespan, and help you maximize its value, delivering an even better user experience.

1

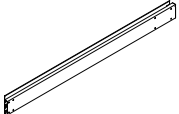

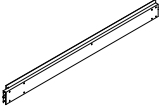

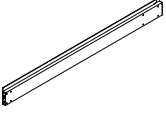

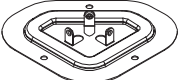

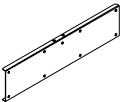

If the deck you are installing is made of hardwood and has a depth exceeding 40mm, you can use ST8\*35mm screws to secure it in place. (This hardware is not included with the product, so you will need to purchase it separately.)

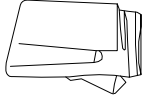

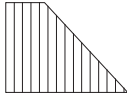

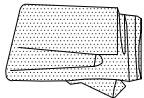

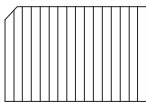

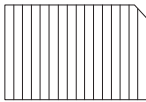

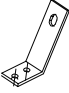

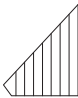

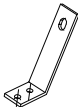

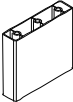

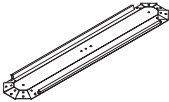

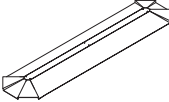

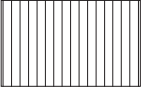

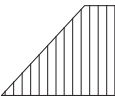

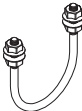

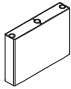

2

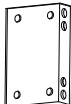

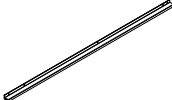

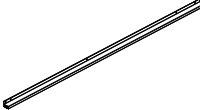

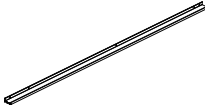

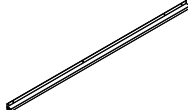

The best option is to fix it on a concrete surface. You can use the expansion bolts that are pre-configured with the product to secure it in place.
