USER MANUAL

Prior to Installation:

- **Inspect freestanding bathtub to ensure no damages have occurred while in shipping.**
- **Observe all plumbing and building codes in accordance with your state and local requirements.**
- **All pre-installed parts must be checked and retightened before installation.**
- **Check bathtub for correct model and size. If at any point during the pre-installation inspection and water test, you discover a problem with the bathtub or piping system, do not install the unit and contact us immediately.**

General Recommendations:

Please read installation and maintenance instructions thoroughly before installing the freestanding bathtub.

Be sure to use proper tools and always wear proper personal safety accessories for your protection.

INSTALLATION INSTRUCTIONS

1、This bathtub must be installed on a flat, level surface. Remove any uneven areas from the floor before installation.Underfloor access is required for proper connection of the bathtub waste.

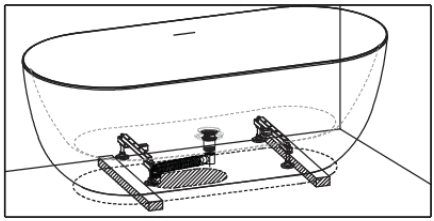

2、The waste connection method depends on site conditions.
The final decision regarding the waste connection should be made by a qualified installer or plumber.

3、Adjust the support legs to ensure they are level with the bottom edge of the bathtub.

4、Place the bathtub on two wooden blocks positioned over the waste outlet.
Connect the waste assembly, then fill the bathtub with water and check for leaks.
Do not remove the wooden blocks until the waste connection has been verified as leak-free.

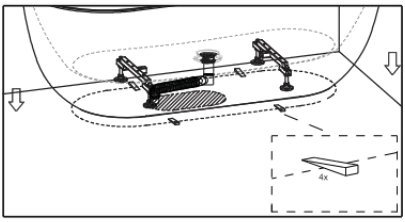

WARNING

Use a soft protective material to cover the bathtub during installation to prevent scratching or surface damage.
Do not step on the edge of the bathtub to prevent it from tipping over, which could cause injury or damage the bathtub.

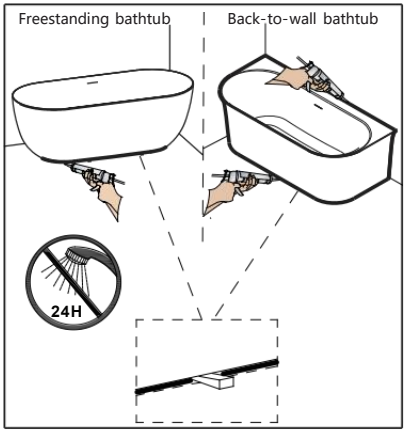

NOTE: For installation reference only; drawings may vary.

Email: SUPPORT@BCANHOME.COM

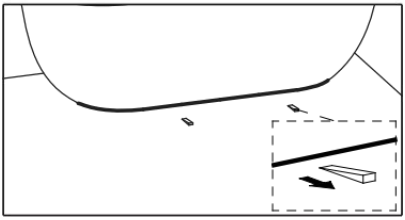

5、Position the wedges securely in place.

6、Freestanding bathtub: Apply a continuous bead of clear silicone sealant around the base of the bathtub to secure it to the floor.
Back-to-wall bathtub: Apply a continuous bead of clear silicone sealant along the joint between the bathtub and the wall.
If future maintenance access is required, the silicone sealant can be carefully cut and removed using a utility knife.

7、Once the bathtub is fully secured, the wedges may be removed and discarded.

WARNING

Use a soft protective material to cover the bathtub during installation to prevent scratching or surface damage.
Do not step on the edge of the bathtub to prevent it from tipping over, which could cause injury or damage the bathtub.

CLEANING AND MAINTENANCE

1. Clean the bathtub regularly using a mild liquid detergent and a soft cloth.
   Do not use cleaners containing acetone or ammonia.
   For disinfection, use a formaldehyde-free disinfectant.
2. Light surface stains may be removed by gently rubbing with toothpaste and a soft cloth.
3. Minor surface scratches or burn marks may be polished using wet 2000-grit waterproof sandpaper.
   After sanding, buff the area to restore the surface finish.
4. Clean plated components with a soft cloth only.
   Do not use abrasive cloths or chemical solvents such as paint thinner.
5. Do not strike or impact the bathtub with sharp or hard objects.

NOTE: For installation reference only; drawings may vary.
