

# RECLINER SLIPCOVERS INSTALLATION GUIDE

1 Find the right arm cover with the "RIGHTARM" & "BACK" label, and cover the top of the recliner first

2 Turn on the recliner and stretch the fabric to the footrest of recliner.

3 Put the right arm cover to the right-armrest and fit snugly around the contours of it.

4 Tuck the excess fabric into the gap of the recliner chair.

5 Find the elastic straps at the bottom of the recliner cover and connect the 2 straps with a black fixing buckle.

6 The installation of the left cover is the same as right side, there are "LEFTARM" & "BACK" labels on the left cover.

If you bought 3-seat recliner chair cover, there is 1 more armless cover. Find the "BACK" Label and place it on the top back of Middle Recliner Chair and follow the same installations steps (2 to 5).
