

ASSEMBLY INSTRUCTION

NOTE: Before assembling, make sure the underneath surface is FLAT, CLEAN and HARD so these tiles can be connected correctly.

1

Find Tile A and Tile B with sides as illustrated in the picture

2

Place tile B on the floor, align the sides of these tiles together.

Insert the connectors to join Tile A and Tile B.

3

Use your hand to firmly push Tile A down to connect the tiles.

Note: You can stomp on these tiles to get them easily connected.

How to cut: Use a saw or scissors to cut tiles to fit in any spaces.

How to disassemble: Grip one tile's edge, push down on the next, and lift it gently to remove.

How to clean: Simply use a water hose to rinse away dirt from the deck tiles.
