

Installation Guide

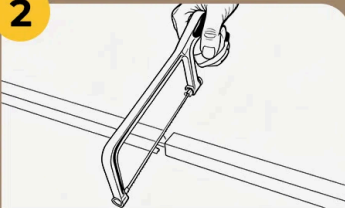

1

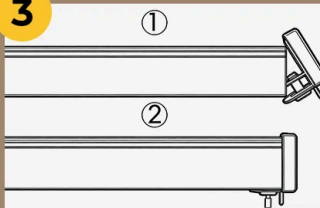

Determine the necessary track length before installation.

2

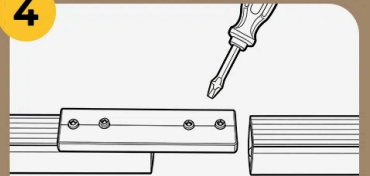

Cut surplus track material with a saw.

3

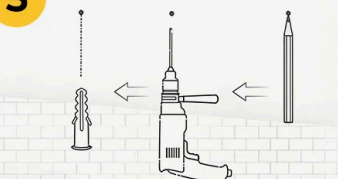

Top-down mount starter cap, then tighten bottom screw.

4

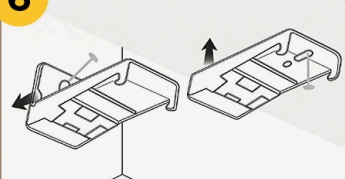

Join the track sections with connectors.

5

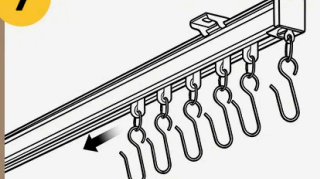

Mark the drilling positions. Drill pilot holes and install expansion anchors.

6

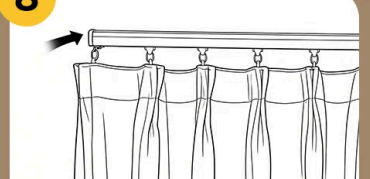

Fasten the track assembly to the ceiling or wall according to your needs.

7

Insert the roller into the track with correct orientation.

8

Choose hooks/clips/adjustable plastic hooks for your curtain style. Install end cap before hanging.
