❶ Installation Guidelines

1. After opening the product packaging, check the parts against the "Included Items" to make sure that all parts are present. If any parts are missing, please contact your local dealer immediately.
2. Your sink should match the installation dimensions of this product.
3. The faucet cartridge in the main body has already been calibrated at the factory. Disassembly is not recommended.
4. The hot water pipe connection should be marked with a red label or ring, and the cold water pipe connection should be marked with a blue label or ring. If the hot and cold water pipe connections are reversed, the red and blue markings on the faucet handle will be opposite to the actual water temperature. Please verify that the hot and cold water pipe connections are correct before turning on the water supply.
5. Before installing the faucet, flush the pre-embedded water pipes to remove any dirt or sediment to avoid clogging and ensure smooth water flow.
6. After installation, check all joints and connections for leaks.
7. Inlet water pressure requirements: 0.05MPa ≤ inlet water pressure ≤ 0.75MPa (including cold water pressure).

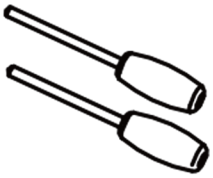

Recommended tools:

Water sealant

Allen key

Flat screwdriver
Cross screwdriver

❷ Faucet Care And Maintenance

a. To keep the faucet surface bright and clean, please clean the faucet regularly:

1. Use clean water to wash the faucet and wipe it dry with a soft cotton cloth.

2. Avoid using cleaning powder, polishing powder, and other abrasive detergents or nylon brushes, as this may scratch and corrode the product.

3. Do not use acidic cleaning agents to wash the faucet, as this may cause corrosion on the surface of the faucet. If the faucet comes into contact with harmful acidic agents, rinse it off with water immediately.

b. If you need to do a deep cleaning, please follow the following steps:

1. Use clean water and a soft cloth to remove as much surface dirt and grime as possible.

2. Use any of the following cleaning agents to remove surface dirt and grime:
   Mild liquid cleanser
   Colorless glass cleaner that does not have abrasive properties and can be completely dissolved (according to instructions)
   Polish liquid that does not have abrasive properties

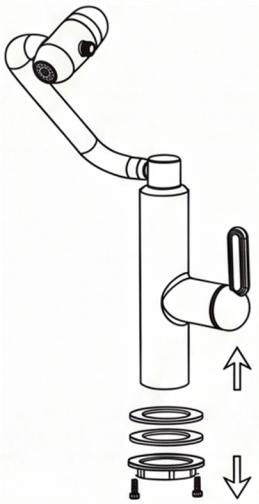

3. After cleaning, rinse off all of the cleaning agent with clean water and wipe dry with a soft cotton
