WARRANTY / SEATING

At Bass Industries, Inc. upholstered quality is handcrafted from the ground up. The manufacturing of all our products begin:

- With a foundation of dried hard wood for maximum strength;
- Frames are assembled using a proven blend of modern technology and traditional craftsmanship;
- Joints are carefully reinforced;
- Springs are securely attached and padding is carefully placed.

The result is a **STRONG DURABLE FRAME** that is built to survive years of day-in/day-out use inside our beautiful styling, handsome fashion fabrics, and sumptuous leathers.

IT'S QUALITY THAT SHOWS, BECAUSE AT BASS INDUSTRIES
WE MAKE IT RIGHT INSIDE AND OUT!

CONSTRUCTION-GENERAL FEATURE

FRAME:

All Bass Industries sofas, loveseats and chairs are constructed with the finest hardwood frames. The wood used is either maple or oak and also plywood. The wood is glued, double doweled, screwed, and stapled and support blocked. The Dowel pins are 1 3/4" x 5/16"

Staples: 1 3/4"

Screws: 1 3/4"

Wood joints plus corner blocks – special staple for arm “Corrugated fastener” in order to stabilize arms and sides.

SPRING:

Seat: No-Sag spring / Gauge (8 MM.) The average sofa takes 15 springs, loveseat 10 and chair 6.

Back: No-Sag spring / Gauge (12 MM.) The back of the sofa takes 12 springs, loveseat 8 and chair 4.

*Cross wire support to help keep seat and back springs firm.

FOAM:

Leather set: Blue foam is used – Density 2 1/4 Lbs. Compression approximately 30 lbs. Softest foam but a very high quality.

Fabric Set: White foam, density 2 1/4 lbs., compression approximately 30 lbs.

Backs are also made of foam and are wrapped as well for softness and durability with Fortrel or Dacron. To make foam softer and make the cushion better looking, it is wrapped with Fortrel or Dracon. Foam for some styles is cut and glued to create shape required.

SEWING:

Seams of 1/2" - Wide enough that it has strength to hold all fabrics. We use 2 threads: Nylon and Cotton in all different colors to match our different fabrics. Zippers have steel teeth. Sliders are made of aluminum.
