- ◆ If you accidentally stick to the beverage, coffee, tea stains on the sofa, please wipe the surface of the leathaire sofa with the mixture of white vinegar and baking soda. Please use a dry cloth to wipe off the moisture on the surface after wiping.
- ◆ Please gently pat and tidy the cushions and backrests of the sofa frequently to keep them beautiful;
- ◆ Please note that the leathaire sofa is not machine washable, as it is a kind of nano sealing glue technology. Please do not tear it with great force. It will destroy the sealing glue on the surface of leathaire fabric, resulting in damage on the surface of the fabric and more serious damage.
- ◆ If wrinkles occur, please iron it with a steam iron at a temperature between 158°F and 176°F.

CLEANING AND MAINTENANCE OF FAUX LEATHER SOFA

- ◆ Please use leather-specific cleaners and care solutions for comprehensive cleaning and care after first purchase. PU sofa should be placed in a suitable temperature, ventilation place where the sun cannot shine directly to avoid leather discoloration or discoloration.
- ◆ Clean the sofa regularly with a clean white cotton cloth. The leather surface can be applied evenly with a special leather cleaner or glossing agent, and then dried later with a clean, soft cloth. Prohibit the use of oily leather care solutions.
- ◆ If you accidentally spilled tea, drinks, soup on the sofa, please wipe clean with a clean white cotton cloth in time. If there are traces of residue, please use a special cleaning agent or tableware cleaner water (cleaner: water : 1: 10), dilute it and then dry with a clean white cotton cloth. Please gently pat and tidy the cushions and backrests of the sofa frequently to keep them beautiful.
- ◆ The surface of the sofa is easily contaminated by grease and sweat from the skin, hair, dirty hands, and dirty clothes. It is recommended to put a piece of decorative cloth on the head and arms to protect the sofa.
- ◆ If wrinkles occur, please iron it with a steam iron at a temperature between 158°F and 176°F.

CLEANING AND MAINTENANCE OF FABRIC SOFA

- ◆ Fabric sofa should be regularly removed with a vacuum cleaner or brush to prevent dust or stains from staying on the fabric for a long time. Fluffing the seat cushions and pillows every week, whether in use or not, will help adjust the density of the padding so that it is even and fluffy back to its natural state. Especially when you often sit in the same position, you need to frequently change the position of the seat cushion to make the cushion force uniform.
- ◆ If you accidentally stick to the beverage, coffee, tea stains on the sofa, please wipe it with a white cotton cloth or absorbent paper towel. If there are residual traces, please wipe the stain with 50% of water and 50% of the solvent of white vinegar, and then clean the stain with neutral soap, or wipe the stain with a piece of soaked cotton cloth. Then use a dry white cloth or absorbent paper towel to absorb the remaining liquid, and finally dry it gently with a blower.
- ◆ If you accidentally splash oil on the sofa, please use absorbent paper to gently wipe off the residual oil. Please gently wipe stains with a piece of pure ethane alcohol soaked in a cotton cloth, do not rub, and then use a dry cloth or absorbent paper towel to suck away the residual liquid.
- ◆ Stains such as handwriting and ink should be dealt with immediately when they are first produced. The longer it's on the fabric, the harder it is to remove.
- ◆ The cleaning method of fabric sofa covers is dry cleaning, and bleach water cannot be added. The fabric sofa covers need to be ironed after washing, and the ironing temperature is between 158°F and 176°F.
- ◆ If wrinkles occur, please iron it with a steam iron at a temperature between 158°F and 176°F.
