SAFETY WARNINGS

1. Follow the information on the warnings attached to the upper bunk end structure and on the carton. Do not remove this label.
2. Always use the recommended size mattress or mattress support, or both, to help prevent the likelihood of entrapment or falls.
3. Surface of mattress must be at least five inches(127mm) below the upper edge of guardrails.
4. Do not allow children less than six years of age to use the upper bunk.
5. Periodically, check and ensure that the guardrail, ladder and other components are in their proper position, free from damage and that all connectors are tight.
6. Do not allow horseplay on or under the bed and prohibit jumping on the bed.
7. Prohibit more than one person on upper bunk.
8. Always use the ladder or bed end for entering and leaving the upper bunk.
9. Do not use substitute parts. Contact manufacturer or dealer for replacement parts.
10. Use of a night-light may provide added safety precautions for a child using the upper bunk.
11. If the bunk bed will be placed next to a wall, the guardrail that runs the full length of the bed should be placed against the wall to prevent entrapment between the bed and the wall. (This applies only to bunk beds without two full-length guardrails.)
12. Always use guardrails on both long sides of the upper bunk.
13. The use of water or sleep flotation mattress is prohibited.
14. Keep these instructions for future reference.
