1 Installation Guidelines

1. When opening the package, refer to the "Package Contents" and ensure all parts are present.
2. Make sure the basin you purchase matches the size of the mixer (faucet).
3. Do not disassemble the mixer body yourself.
4. Connect the inlet hoses to the supply stopper: the left hose to the hot water supply, and the right hose to the cold water supply.
5. Before installation, ensure:
The inlet pipes and supply stopper are installed and clean.
There are no impurities in the pipeline.
6. After finishing the installation, check all joints and connections for leaks.
7. The water pressure should be between 0.05 MPa and 0.75 MPa, including cold water pressure.

Kind Tips:

It is recommended to install the faucet after the house has been properly cleaned.
Suggestion: If the faucet is located in a highly corrosive environment, clean the faucet surface frequently to maintain its lifespan.

Recommended tools:

•Water sealant

•Allen key

•Flat screwdriver
•Cross screwdriver

2 Included Items

NO.	Part name	Quantity
1	Overhead Shower	1
2	Shower Pipe	1
3	Handheld Shower	1
4	Main Body	1
5	Curved Arm	1
6	Mounting Base	1
7	Screw Pack	1
8	Shower Hose	1 set
9	User Manual	1

3 Dimension Diagram

4 Installation Steps

1	2	3
Use the installation positioning plate to embed the hot and cold water inlet pipes and outlet pipes according to the dimensions in the diagram, ensuring the distance and level of the pipes.	Wrap the water inlet and outlet connectors with PTFE tape, then connect them to the pre-embedded water pipes.	Place the water inlet connector over the outlet on the faucet body, then tighten the screws on the faucet body.

 Self-tapping screws Self-tapping screws	
4 Drill holes in suitable positions on the wall according to usage habits, then insert self-tapping anchors.	5 Install the shower pipe assembly, handheld shower, and overhead shower, tightening all connections to prevent leaks.

5 User Guide

1. Gradually turn the handle, which is more beneficial for protecting the valve core. 2. Press the function button to release water; the function button can release water at the same time, and return upward to shut off the water. (As shown in the right picture 1) 3. Turn the handle counterclockwise to increase the hot water flow and decrease the cold water flow, raising the water temperature; turn the handle clockwise to decrease the hot water flow and increase the cold water flow, lowering the water temperature. (As shown in the right picture 2)

6 Mixer Care and Maintenance Tips

a. Regular Cleaning:

For daily or regular cleaning, simply wash the mixer with clean water and wipe it dry with a soft cotton cloth.

Avoid using cleaning powder, polishing powder, abrasive detergents, or nylon brushes, as these can scratch and damage the surface.

Do not use acidic cleaning agents. If the mixer comes into contact with any harmful acids, rinse it immediately with clean water.

b. Deep Cleaning:

For deeper cleaning:

First, remove as much dirt and grime as possible with clean water and a soft cloth. Then, use one of the following cleaning agents:

- Mild liquid cleanser
- Colorless glass cleaner with no abrasives (ensure it completely dissolves according to instructions)
- Non-abrasive polish liquid

After cleaning, thoroughly rinse off all cleaning agent with clean water and wipe dry with a soft cotton cloth.
