**Features:** Tilt and swivel desk chair with pneumatic lift  
Leather seat and back  
Casters

**Material:** Cherry Veneers with Split Grain Leather

**Finish Construction:** Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.

**Expected Availability:** 05/17/2022

**Important Use Information:** We highly recommend the use of an appropriate floor mat under our Executive and Office Chairs. Failure to use such floor mats will result in caster failure and will void any claims to floor or carpet damage on all makes and models of flooring.
