

Assembly Guide

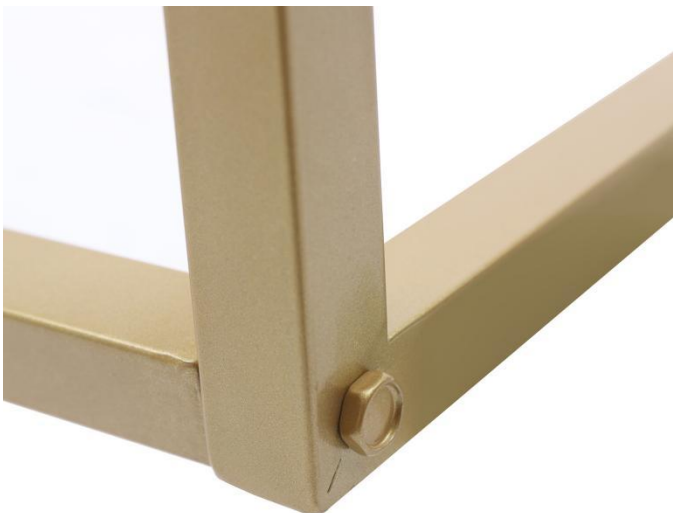

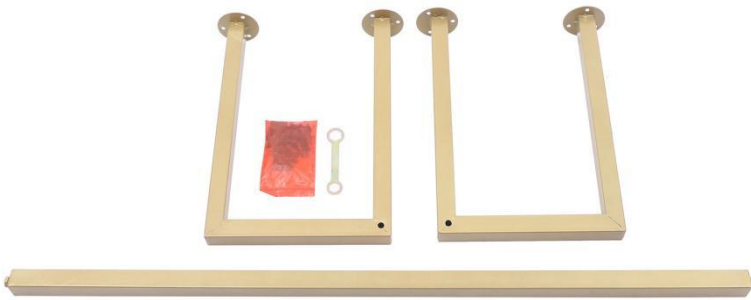

Step 1: Open the box and take out all the parts.

Package Included:

2* U-shaped Rods

1* Long Rod

1 Pack* Expansion Screws

Step 2: Insert the ends of the long rod into the holes in the U-shaped rods on each side.

Step 3: Follow the steps below to install the display rack to the wall.

- ① Prepare the impact drill.
- ② After setting the approximate location of the rack on the wall, prepare a ruler to measure the height, hole spacing and hole location and mark them with a pencil, then drill the holes with an impact drill.
- ③ Drive in the expansion screws and fix the expansion screws.
- ④ Secure the display rack with screws.
