Instruction for use

The height of the headrest: The height of the headrest can be adjusted by pulling and pushing up and down the headrest.

Reclining the backrest: Sit on the chair and pull the handle on the right side of the seat back without letting go, while leaning back hard while the backrest is down. Release the handle at the desired angle and fix the backrest angle.

Backrest rebound upright: Return to the body upright, pull the handle on the right side of the seat back again, and the seat back rebounds and stands upright.

Lock: Lift the foot pump rod upward, and the rotation and lifting functions are locked.

Unlock: Press the foot pump rod down, and the rotation and lift functions resume.

Seat up: Foot down on the foot pump rod 5-10 cm, and repeat. Don't step too deep!

Seat down: Downhill the foot pump rod and hold still to lower the seat.
