

1. Thread the power cord through the iron pipe and tighten the iron pipe to connect with the lamp body.
2. Thread the power cord through the lifting ring to successfully secure the lamp body to the suspension chain.
3. Secure the mounting bracket to the outlet box using screws.
4. Pull out the power cord from the outlet box. Use wire nuts for wiring, as shown below:
 - Connect the white line of the lighting fixture to the white line of the power supply.
 - Connect the black wire of the lighting fixture to the black wire of the power supply.
 - Connect the ground wire of the lighting fixture to the ground wire of the outlet box.
 Carefully plug the wires back into the outlet box.
5. Cover the mounting bracket with a ceiling plate and tighten the decorative nut to secure the ceiling plate.
6. Install appropriate light bulbs (excluding light bulbs)
