

INSTALLATION GUIDE:

1. Unpack the lamp and check if all parts are included in the package. The package should contain the parts 'A-G';
2. Put the lamp base 'A' on the horizontal level;
3. Connect the harp holder 'B' into the saddle 'C';
4. Align the lamp shade 'D' over the harp holder 'B', ensuring it sits evenly and in the correct position;
5. Tighten the decorative sphere 'E' on the top of the shade. This is done by hand by rotating the sphere until it is securely fastened, ensuring the shade is stable on the lamp base;
6. Insert the bulb 'H' (H is not provided) into socket 'F'. Be sure to use either a maximum 60W incandescent bulb or a 9W LED bulb;
7. Turn on your lamp to test its function by pull the chain 'G' to turn on/off.

SAFETY WARNING

1. When installing the bulb, make sure the power is off to prevent electrical shocks;
2. Ensure that the lamp is placed on a stable surface and away from any flammable materials such as curtains, paper, or plastic;
3. Always use the recommended bulb wattage for your lamp to avoid overheating and potential fire hazards;
4. Keep the lamp away from water or other liquids.
