Remote control Switch function description

	Turned off the light
	Turned the light on
	Night light
	Timing off the lights for 60 Seconds
	Dim brightness to reduce
	Dim brightness to increased

Use of remote control:

Remote control matching lamp	Pairing: after the lamp is powered off for more than 3 seconds, power on the lamp and press the "turn on" button for 3 seconds within 5 seconds. At this time, the lamp will first dim and then return to its original brightness, indicating that the lamp and remote control are successfully paired. Unpairing: after the lamp is powered off for more than 3 seconds, power on the lamp. Within 5 seconds after the lamp is powered on, press the "Off" button 5 times rapidly and continuously. At this time, the lamp will darken first and then change back to the original brightness, indicating that the lamp and remote control have been unpaired successfully.
Inverted Paralled shape	After pressing the "timing off" function of the remote control, turn off the light for 60 seconds. During the waiting period, press the "timing off" function again, and the time for turning off the light will be reset to 60 seconds. However, when waiting to turn off the light, press "Light on", "brightness -" and "brightness +" to cancel the function of timing off the light.

Use AAA 1.5V Alkaline battery 1 pair

LED Light 24V 28W
