

# BRIGHTECH

## The Elizabeth

1. Screw the bottom pole (B) into the base (A) and then screw the pole (C) into the bottom pole (B), pole (D) into a pole (C). Screw the upper pole (E) into the pole (D).
2. Screw the socket arm (F) into the upper pole (E) and gently pull the cord from the bottom of the lamp so that any excess cord is tucked neatly inside.
3. Unscrew the socket fastener (H) from the socket arm (F), then place the glass shade (H) on it as shown to the right. Reaching into the glass shade, screw the socket fastener (H) onto the socket and screw it in firmly in order to hold the shade in place.

### BULB TYPE:

Includes 1x ST-19 5W LED bulb.

The Elizabeth LED Floor Lamp may be used with a maximum of 1 x 100W incandescent bulb.

### General Product Information

This product is suitable for dry locations only.

### Important Safety Instructions

This product has a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will fit in a polarized outlet in only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. **DO NOT ALTER THE PLUG.**
