Light Source Included: No
Voltage: 120V AC
Wattage: 40W Max (Per LED Bulb)

Package includes

1 x Chandelier Light
1 x Accessories Kit
1 x User's Manual

Installation Instructions

- 1-3. Use the provided rods and the ceiling canopy (with sloped ceiling adapter) to determine the desired height of the fixture. Secure them to the main body.
4. Attach the metal fittings on the steel cables to the corresponding positions on the fixture and tighten them securely.
5. Retract both steel cables and adjust them to ensure the central rod remains vertical. (Ensure the center rod is aligned with the center of the mounting hardware. Press down to adjust the steel cable length.)
6. Loosen the pre-installed steel wire and place it approximately 2 inches (2") above the ceiling canopy. Lock it onto the steel wire after adjustment.
- 7-8. Use mounting screws to attach the mounting bracket to the junction box.
9. Remove the electrical wires from the junction box and connect them using wire nuts. Follow these steps: Connect the white wire (neutral) from the fixture to the white wire (neutral) in the junction box. Connect the black wire (hot/live) from the fixture to the black wire (hot/live) in the junction box.
10. Connect the green ground wire from the fixture to the ground screw on the mounting bracket. Then, use a wire nut to connect the green ground wire to the ground wire in the junction box. Carefully tuck all wires into the junction box.
11. Use the decorative nut (11) to secure the ceiling canopy (3) to the junction box.
12. Install the light bulbs (not included).
13. Attach the glass shades to the lamp holders.

Note: please use this product accordingly to its intended purpose, do not retrofit or remodeling the product. The warranty does not cover if the failure is caused by the third party product, or natural disasters.
