## **Warning and Tips to Protect and Care for Your Furniture**

1. This unit contains small parts which could be a choking hazard for small children. Children should be under adult supervision at all times or serious bodily injury could occur.
2. Do not overload unit. If any shelf, top, or bottom of unit bows or bends, it is overloaded. The shelf, or bottom could collapse and cause serious bodily injury and/or damage to personal belongings.
3. Do not use this unit as a television stand. Serious bodily injury and/or damage to personal belongings may occur.
4. Avoid placing your furniture in direct sunlight, as sunlight causes fading.
5. Avoid extreme changes in temperature by arranging furniture away from radiators, heat and air vents and air conditioning units.
6. Avoid placing plastic or rubber materials (lamp bases, notebooks, placemats, etc.) on your furniture, as certain plastics contain ingredients that may damage the finish.
7. Periodically rotate accessories on furniture so they do not sit in the same spot all the time.
8. Use pads, cloth or felt to protect the furniture so they do not sit in the same spot all the time.
9. Clean up spills immediately. Use a blotting rather than a wiping action. Water left over a long period of time will cause white spots in the finish. Alcohol, perfume, after-shave and medications can cause severe finish damage.
10. Use a protective pad when writing on the furniture surface.
11. Lift and place objects rather than dragging them across the furniture surface.
12. We recommend you protect your work surface during assembly to prevent scratching or damage to table tops, wood floors, etc.
13. We recommend you hand-tighten screws. Use care not to over tighten if using power tools.
