# Manual controller instructions

1. Press and hold the  $\triangle$  button.

The footrest will slowly rise, while the backrest synchronously lowers.

The movement will automatically stop when it reaches the maximum position.

2. Press and hold the  $\nabla$  button.

The footrest will slowly lower, while the backrest synchronously rises.

The movement will automatically stop when it reaches the maximum position.

3. Memory setting:

Adjust the sofa to your desired position, then press and hold the memory

button  or  for more than 3 seconds. The position will be successfully memorized.

4. Reset setting: Press and hold the  $\nabla$  button until the sofa reaches the lowest limit position and release the button. Then press and hold the  $\nabla$  button again until the footrest slightly retract and bounce back. This indicates a successful reset.
