

WALL CLOCK CLEANING CARE INSTRUCTIONS

Dust Removal: For dust and dirt removal use a soft and lightweight duster, while being careful not to damage the clock's hands.

Metal: Buff using a soft cloth, slightly dampened with a citrus oil-based product. DO NOT use brass polish or household cleaners as these will damage the metal.

Glass: Use glass cleaner and dry with a paper towel or lint-free cloth. NEVER use an abrasive cleaner or any cleaner that could scratch the surface.

Plastic: Wipe with a slightly damp cloth and a mild solution of dish soap and warm water.

Wood: Wipe using a dry microfiber cloth. If unwanted stains or residue remain, dampen cloth and wipe clean. Do not wipe too harshly as this may discolor the finish.

Gears: Do not attempt to clean the gears, and do not apply pressure on the clock hands, as these actions may irreparably damage the time-keeping pieces.
