

- The Revolutionary New Cooking Surface Where Square Bottom Meets Round Top!
- Introducing the amazing quality culinary wonder - the square bottom frying pan with the round top. You get more cooking space in the pan while traditional round lids fit the top perfectly.
- They are made of heavy gauge aluminum that heats faster and evenly. The premium nonstick coating is healthy for cooking and easy to clean up. They also come with stylish wooden look handles and knobs. Both handles and knobs stay cool.
- These pans are just right for cooking everything from steak to chicken and any homemade meal. The square bottom not only gives you more space for food but gives your pan more heating space. Pans heat faster with slightly quicker cooking times. This means you get dinner on the table faster with less wait and hassle. Your hungry crew is going to love it!
- We always liked cooking with square pans. They heat up faster and offer more space for food. Your food cooks better. And you get tastier meals that are ready sooner.
- Our frying pans are food grade and professional culinary quality. Everyone from homeowners who like to cook a few favorites to professional chefs who rely on these pans every night loves their smart convenience.
